22 Commission for Architectural and Historical Preservation, or by any other
23 person, board, department, bureau, commission, or agency with jurisdiction,
- 24 2. otherwise fail to comply with any provision of this Code, of City Code Article 6, or of
25 any rule, regulation, decision, permit, notice, or order issued under this Code or City
26 Code Article 6, or
- 27 3. cause any of these acts or omissions to be done.

28 **114.2 Violation notice or order.** Except as otherwise provided in this Code, the Building
29 Official may serve a violation notice or order on any person legally responsible for the
30 construction, alteration, addition, repair, rehabilitation, demolition, moving, location, use,
31 occupancy, or maintenance of any structure, premises, land, or equipment in violation of any
32 provision of:

Council Bill 24-0502

- 1 1. this Code, or
- 2 2. a plan approved under this Code, or
- 3 3. a permit or certificate issued under this Code.

4 **114.2.1 Tenor of notice or order.** The notice or order may direct:

- 5 1. the discontinuance of the illegal action or condition, and
- 6 2. the abatement of the violation, which may include restoration to the prior
7 condition.

8 **114.3 Enforcement generally.** If a violation is not [promptly] discontinued or [abated,]
9 **ABATED WITHIN 14 DAYS OF THE ISSUANCE OF A VIOLATION NOTICE,** or if the violation notice
10 or order is not complied with [promptly,] **WITHIN 14 DAYS OF THE ISSUANCE OF A VIOLATION**
11 **NOTICE,** the Building Official may institute or cause to be instituted any appropriate legal
12 proceedings. **PROVIDED HOWEVER, FOR AN EMERGENT ISSUE, AS DETERMINED BY THE**
13 **BUILDING OFFICIAL, THE 14 DAY PERIOD TO ABATE OR COMPLY WITH THE NOTICE OR ORDER**
14 **MAY BE WAIVED BY THE BUILDING OFFICIAL AND THE BUILDING OFFICIAL MAY INSTITUTE OR**
15 **CAUSE TO BE INSTITUTED ANY APPROPRIATE LEGAL PROCEEDINGS.**

16 **114.3.1 Types of proceedings.** Enforcement proceedings may include:

- 17 1. injunctive or other equity proceedings, including:
 - 18 a. an action initiated by a code-enforcement-injunction citation under
19 City Code Article 19, § 71-3 {"Code enforcement injunction"}, or
 - 20 b. an action for appointment of a receiver under § 121 {"Vacant Building
21 Receiver"} of this Code,
- 22 2. criminal prosecution, including a prosecution initiated by a prepayable criminal
23 citation under City Code Article 19, § 71-2 {"Prepayable criminal citations"}, and
- 24 3. administrative proceedings, including one initiated by an environmental citation
25 under City Code Article 1, § 40-14 {"Violations to which subtitle applies"}.

26 **114.3.2 Remedies not exclusive.** In pursuing a violation, the Building Official may use
27 any 1 or more available remedies or enforcement actions. The initiation of any 1 remedy
28 or enforcement action does not preclude pursuing any other remedy or enforcement action
29 authorized by law. Neither damages, irreparable injury, nor the lack of an adequate
30 remedy at law is a prerequisite to enforcement in equity.

31 **114.3.3 When prior notice not required.** A violation notice or order is not a
32 prerequisite to enforcement action in the following situations:

- 33 1. when seeking a temporary restraining order or injunction in an emergency,
- 34 2. when seeking equitable relief for a pattern or practice of noncompliance,

Council Bill 24-0502

- 1 3. for work being done without a permit or in violation of a stop-work order,
- 2 4. for a violation that remains unabated after a prior prosecution for that violation,
- 3 5. for a prepayable criminal citation that is issued under City Code Article 19,
- 4 Subtitle 71 {"Special Enforcement Officers"} and for which prior notice is
- 5 waived under Article 19, § 71-2 {"Prepayable criminal citations"},
- 6 6. for an environmental citation that is issued under City Code Article 1, Subtitle 40
- 7 {"Environmental Control Board"},
- 8 7. for occupying or causing to be occupied a building that is subject to a violation
- 9 notice issued under § 116 {"Unsafe Structures"} or § 120 {"Condemnation
- 10 Proceedings"}, and
- 11 8. in any other case specifically authorized by this Code.

12 **114.4 Violation a misdemeanor.** A person is guilty of a misdemeanor and, on conviction,

13 subject to the penalties specified in this § 114.4, if the person:

- 14 1. violates a provision of this Code,
- 15 2. fails to comply with any requirement of this Code or of a {rule,} regulation, order,
- 16 decision, permit, or notice issued under this Code, or
- 17 3. constructs, alters, adds to, repairs, rehabilitates, demolishes, moves, locates, uses,
- 18 occupies, or maintains any structure, premises, land, or equipment in violation of an
- 19 approved plan or directive of the Building Official or of a permit or certificate issued
- 20 under this Code.

21 **114.4.1 Notice required.** Except as otherwise specifically authorized by law, criminal

22 proceedings may not be initiated unless the Building Official issues a notice of violation

23 and allows a period within which to abate the violation.

24 **114.4.2 Each day a separate offense.** [Each day] **IF A VIOLATION IS NOT DISCONTINUED,**

25 **ABATED, OR COMPLIED WITH WITHIN 14 DAYS FROM THE ISSUANCE OF A VIOLATION**

26 **NOTICE, EACH DAY THEREAFTER** that a violation continues is a separate offense. Proof

27 that a violation exists on any date after issuance of a violation notice is prima facie

28 evidence that the violation has continued unabated throughout the intervening period.

29 **114.4.3 Penalties.** The penalty for each offense is [as follows:

- 30 1. for work done without a permit or in violation of a stop-work order, a fine of not
- 31 more than \$500 or imprisonment for not more than 90 days or both fine and
- 32 imprisonment, and
- 33 2. for all other violations,] a fine of not more than \$500.

Council Bill 24-0502

1 **114.5 Civil penalties and costs.** In equity proceedings instituted under this Code:

- 2 1. a violation for which equitable relief is sought is subject to a civil fine of not more
3 than \$500 for each day that the violation continues unabated,
- 4 2. the defendant is liable for the plaintiff's enforcement costs and reasonable attorneys'
5 fees, at the rate established by the Court of Appeals, whether or not the attorney is a
6 salaried employee of the plaintiff, and
- 7 3. judgment may be sought for outstanding liens imposed by the City on property subject
8 to the proceeding and owned by the defendant.

9 **114.6 Additional legal action.** The imposition of penalties does not preclude the City
10 Solicitor from instituting appropriate legal proceedings to:

- 11 1. prevent unlawful construction,
- 12 2. restrain, correct, or abate a violation,
- 13 3. prevent illegal occupancy of a structure or premises, or
- 14 4. stop an illegal act, conduct, business, or use of a structure on or about any premises.

15 **114.7 to 114.10 {Reserved}**

16 **114.11 Revoking or withholding violator's permits.**

17 **114.11.1 Scope.** This § 114.11 applies whenever the Building Official finds that an
18 owner, an owner's agent, a contractor, or an architect, engineer, or other design
19 professional:

- 20 1. has violated a provision of this Code, of a permit, or of the rules and regulation
21 of any department or agency of the City in connection with the construction,
22 alteration, addition, repair, rehabilitation, demolition, moving, location, use,
23 occupancy, or maintenance of any structure, premises, land, or equipment, or
- 24 2. has failed to pay any outstanding citation issued or fee imposed under this Code.

25 **114.11.2 Actions authorized.** In any situation described in § 114.11.1, the Building
26 Official may:

- 27 1. revoke, without prior notice, any existing permit that has been granted:
 - 28 a. to the owner, the owner's agent, the contractor, or the architect, engineer,
29 or other design professional, or
 - 30 b. for work in connection with which the design professional is employed,
31 and
- 32 2. refuse to grant, for a period of up to 5 years, any further permits:

Council Bill 24-0502

- 1 a. to the owner, the owner’s agent, the contractor, or the architect, engineer,
2 or other design professional,
- 3 b. for work in connection with which the design professional is employed, or
- 4 c. for work on the property with respect to which the violation occurred.

5 **114.12 to 114.13** *{Reserved}*

6 **114.14 Work without permit.** Any person who does work without a permit, outside or
7 beyond the scope of a permit, or in a manner inconsistent with plans or drawings approved as
8 part of a permit application:

- 9 1. is in violation of this Code and subject to enforcement action without notice,
- 10 2. must immediately stop any work in progress,
- 11 3. must obtain a permit, paying all associated fees and penalties, whether the work
12 is in progress or completed, and
- 13 4. must restore the structure to its original condition, unless:
 - 14 a. the work otherwise conforms to the relevant requirements of law, and
 - 15 b. the Building Official, in his or her discretion, allows the work to
16 remain or continue.

17 **114.15 to 114.20** *{Reserved}*

18 **114.21 Responsibility of owners and operators.** Except as otherwise specifically provided
19 in § 114.21.1, the owner and the operator of any property subject to this Code are each:

- 20 1. responsible for compliance with all provisions of this Code in all matters pertaining
21 directly or indirectly to that property, and
- 22 2. liable for all violations of this Code in connection with any land, structure, matter, or
23 thing owned or controlled by them.

24 **114.21.1 Exceptions.** Only the owner is responsible for compliance with a provisio
25 requiring an owner’s signature. Except as specified in § 114.21.2, an owner or operator is
26 not responsible for compliance with a provision of this Code that is specifically
27 designated as the responsibility of the occupant, unless that owner or operator is also an
28 occupant.

29 **114.21.2 Liability for sanitary maintenance.**

- 30 **a. Secondary liability.** If, after a notice, order, or citation, a tenant fails to correct a
31 violation of Property Maintenance Code § 305 {“Exterior Sanitary Maintenance –
32 General”} or § 306 {“Exterior Sanitary Maintenance – Trash, Garbage, and
33 Debris”} for which occupants are responsible under Property Maintenance Code §

Council Bill 24-0502

1 308 {"Occupants' Sanitary Responsibilities"}, the owner and operator of the
2 property are secondarily liable.

3 **b. Liability – Failure to register property.** The owner of a property is responsible
4 for exterior sanitary maintenance if:

- 5 1. the owner fails to register or license the property as required by City Code
6 Article 13, Subtitle 4 {"Registration of Non-Owner-Occupied Dwellings,
7 etc."} or Subtitle 5 {"Licensing of Rental Dwellings"}, or
- 8 2. reasonable attempts at telephone contact, using information in a current
9 registration statement, do not lead within 2 business days to current
10 occupant information.

11 **c. Liability – Third environmental citation.** The owner of a property is
12 responsible for exterior sanitary maintenance if:

- 13 1. within the previous 12 months, two or more environmental citations were
14 issued under City Code Article 1, Subtitle 40 {"Environmental Control
15 Board"}, for violations of this Code that were the responsibility of an
16 occupant of the property under Property Maintenance Code § 308
17 {"Occupants Sanitary Responsibilities"}, and
- 18 2. notification of each citation has been sent to the owner by regular mail.

19 **114.21.2.1 Notice to owner, operator.** Before an owner or operator may be charged
20 under § 114.21.2a {"Secondary liability"}, he or she must be served with a violation
21 notice under § 123.4 {"Violation notices"}. A violation notice under § 123.4 is not
22 necessary to charge an owner under §§ 114.21.2b {"Liability – Failure to Register
23 Property"} or 114.21.2c {"Liability – Third environmental citation"}.

24 **114.21.2.2 Recovery of expenses.** If an owner or operator incurs expenses in
25 correcting the violation, the owner or operator:

- 26 1. may bring legal action to recover those expenses from the tenant, and
- 27 2. has all the rights and remedies available under the law for nonpayment.

28 **114.22 Responsibility of others.** In addition to the owner or operator of the property
29 involved, any other person who violates any provision of this Code is liable for the violation
30 and, on conviction, is subject to all penalties provided in this Code for the violation.

31 **114.23 Responsibility of transferee.** This § 114.23 applies whenever any property is
32 transferred by sale, assignment, ground rent lease, or otherwise, with or without consideration
33 ("transfer"). Except as provided in § 114.25 {"Responsibility of mortgagee"}, this § 114.23
34 does not apply to a mortgagee or to the holder of a note secured by a deed of trust.

35 **114.23.1 Duty before transfer.** Before any transfer of property, the transferee must
36 obtain a copy of a violation report for the property.

Council Bill 24-0502

1 **114.23.2 Primary liability of transferee.** On transfer of the property, if any violation or
2 condemnation notices lie against the property and are included in the violation report, the
3 transferee:

- 4 1. becomes primarily liable for those notices the same as if the notices had been
5 addressed to the transferee,
- 6 2. must abate the violation, and
- 7 3. is liable in accordance with § 117 {“Emergency and Corrective Measures”} of
8 this Code for any expenses incurred by the City in abating the violation or
9 condemnation notice, if the transferee failed to request a violation report as
10 required by § 114.23.1.

11 **114.23.3 Reliance on violation report.** A transferee is not liable for abatement
12 expenses incurred by the City if, before the transfer, the transferee requested a violation
13 report and the report does not show the violation.

14 **114.24 Responsibility of officers, directors, etc., of corporations, partnerships, etc.**
15 Whenever a corporation, joint stock company, partnership, association, limited liability
16 company, or other entity violates any provision of this Code, every officer, director, trustee,
17 partner, member, or agent of that entity who has authorized or done any of the acts
18 constituting the violation, in whole or in part, or who has failed to act or acquiesced in any
19 failure to act constituting the violation, in whole or in part, is individually guilty of a
20 misdemeanor and, on conviction, is subject to the penalties provided in this § 114.

21 **114.25 Responsibility of mortgagee.** A person that acquires an interest in property by way
22 of a mortgage or deed of trust (“lender”) is liable to the same extent as an owner/transferee
23 for a violation or condemnation notice pertaining to a vacant unsafe structure, if:

- 24 1. the person with primary responsibility fails to comply with the notice,
- 25 2. the lender has been notified by certified mail of the violation or condemnation notice,
26 and
- 27 3. within 180 days after the receipt of the notice:
 - 28 a. ratification of a foreclosure sale of the property has not occurred, or
 - 29 b. the lender has not released its mortgage or deed of trust.

30 **114.25.1 Bankruptcy toll.** The 180-day period referred to in § 114.25(3) is tolled by
31 any period during which the lender’s right to foreclose is stayed by a pending proceeding
32 under the federal Bankruptcy Code.

33 **114.25.2 Defense.** During any enforcement proceeding instituted against a lender under
34 this section, it is a defense that the lender did not have the right to institute foreclosure
35 proceedings.

36 **114.25.3 During pendency of foreclosure.** During the pendency of a foreclosure, the

Council Bill 24-0502

1 lender is responsible for maintaining the property free from high vegetation, free from
2 accumulation of trash and debris, and otherwise in full compliance with the requirements
3 of this Code.

4 **114.26 Responsibility of buyer on foreclosure.** On foreclosure or sale in lieu of
5 foreclosure, the buyer:

- 6 1. acquires ownership responsibility when the sale is ratified, and
- 7 2. takes title subject to any outstanding notices.

8 Section 115 Stop-Work Order

9 **115.1 Authority.** *{As in IBC}*

10 **115.2 Issuance.** The stop-work order must be in writing and state the reason for the order.
11 It must be posted on the property. On posting, the cited work must immediately cease.
12 Written notice of the stop-work order must be sent by first class and certified mail to the
13 owner of the property involved.

14 **[115.3 Unlawful continuance.** *{As in IBC}*]

15 **115.3 EMERGENCIES** *{AS IN IBC}*

16 **115.4 FAILURE TO COMPLY** *{AS IN IBC}*

17 **115.5 [115.4] Removal, etc., of posted notice.** Until the Building Official so authorizes, no
18 person may remove, deface, damage, or change any notice, poster, or sign placed under this
19 section on any land, structure, or other object.

20 Section 116 Unsafe Structures

21 **116.1 General.** Any structure or part of a structure found to be unsafe or unfit for human
22 habitation or other authorized use must be rehabilitated or, as permitted or required by the
23 Building Official, demolished.

24 **116.1.1 Scope.** A structure may be unsafe or unfit for human habitation or other
25 authorized use because of:

- 26 1. conditions constituting a fire hazard or conditions of damage, decay, dilapidation,
27 obsolescence, abandonment, vacancy (as described in § 116.4), insanitation, or
28 vermin or rodent infestation that constitute a hazard to the health, welfare, or
29 safety of occupants or the public,
- 30 2. lack of sanitation, illumination, ventilation, heating, plumbing, exitways, fire
31 protection, utilities, or other facilities adequate to protect the health, welfare, or
32 safety of occupants or the public, or

Council Bill 24-0502

- 1 3. conditions that are so unsafe, insanitary, overcrowded, improper in use or
2 occupancy, or otherwise dangerous to life, health, welfare, or safety as to create a
3 hazard to occupants or the public.

4 **116.2 Occupied unsafe structures.** Whenever the Building Official or the Commissioner
5 of Health finds all or any part of an occupied structure to be unsafe or unfit for human
6 habitation or other authorized use:

- 7 1. either the Building Official or Commissioner of Health may:
 - 8 a. post an order requiring the structure or affected part to be vacated, and
 - 9 b. take necessary steps to remove occupants who fail or refuse to vacate,
- 10 2. once vacated, the structure or affected part may not be reoccupied until:
 - 11 a. it is rehabilitated to comply with all applicable codes and ordinances, and
 - 12 b. the Building Official has issued an occupancy permit, and
- 13 3. pending rehabilitation, the structure must be kept secure against casual entry and the
14 premises kept free of occupants, litter, high grass, and weeds.

15 **116.3 Temporarily unoccupied structures.** Any structure or part of a structure that has
16 been left unoccupied without removing appliances or portable equipment or furniture and
17 without disconnecting utility service must be safeguarded by closing and securely locking all
18 windows, doors, and other openings.

19 **116.4 Vacant structures.** Every vacant structure, as defined in this § 116.4, is declared to
20 be a fire hazard and a nuisance per se, and must be safeguarded and otherwise maintained as
21 required in this § 116.4.

22 **116.4.1 Definitions.**

23 **116.4.1.1 General.** In this § 116.4, the following terms have the meanings indicated.

24 **116.4.1.2 Vacant structure.** “Vacant structure” means a structure or distinguishable
25 part of a structure that is:

- 26 1. unoccupied, and
- 27 2. either:
 - 28 a. unsafe or unfit for human habitation or other authorized use, or
 - 29 b. a nuisance property.

30 **116.4.1.3 Nuisance property.** “Nuisance property” means:

- 31 1. an unoccupied structure for which 2 or more final, non-appealable Building

Council Bill 24-0502

1 Code, Fire Code, or Property Maintenance Code violations remained unabated
2 for 10 days or more beyond the date by which the violation notice, citation, or
3 order required the violation to be corrected; or

- 4 2. the exterior premises of an unoccupied structure for which, at any time within
5 the preceding 12 months, on 6 or more separate occasions, final, no-longer
6 appealable violation notices, citations, or orders were served to correct
7 violations of Property Maintenance Code, § 305 {"Exterior Sanitary
8 Maintenance – General"} or § 306 {"Exterior Sanitary Maintenance – Trash,
9 Garbage, and Debris"}.

10 **116.4.1.3.1 Registered interest holders.**

11 **116.4.1.3.1.1 Registration authorized.** A holder of an interest in a structure
12 by way of a mortgage or deed of trust may register that interest in the Housing
13 Commissioner’s Registry of Non-Owner-Occupied Dwellings, Rooming
14 Houses, and Vacant Structures (City Code Article 13, Subtitle 4).

15 **116.4.1.3.1.2 Notice required to registrants.** Before declaring an
16 unoccupied structure to be a nuisance property, the Building Official must
17 send a notice, by first-class mail or email, to any interest holder that is
18 registered for that structure under City Code Article 13, Subtitle 4
19 {"Registration of Non-Owner-Occupied Dwellings, Rooming Houses, and
20 Vacant Structures"}.

21 **116.4.1.3.1.3 Tenor of notice.** The notice shall provide the interest holder
22 with the opportunity to avoid a declaration of public nuisance if, within 30
23 days of the mailing, the interest holder:

- 24 1. abates all outstanding violations; and
25 2. submits a reasonable plan to the Building Commissioner for regular
26 maintenance of the property.

27 **116.4.1.3.2 Official’s corrective actions do not constitute abatement.**

28 Actions taken by the Building Official to clean, secure, or repair a property do not
29 preclude the Building Official’s determination that the property is a nuisance
30 property.

31 **116.4.2 Determination of vacancy, noncompliance.** A determination of vacancy and a
32 determination of noncompliance with a notice or order issued under this section may be
33 based on observation that a structure:

- 34 1. contains, at any level, any open window or door, any opening caused by
35 damage or decay, or any other opening that is unprotected from intruders,
36
37 2. has boarded windows or doors, or
38
39 3. lacks intact doors, windows, window sashes, walls, or roof surfaces to protect
40 against the elements.

Council Bill 24-0502

1 **116.4.3 Required safeguarding.** Every vacant structure must be cleaned, closed, and
2 safeguarded as follows:

- 3 1. Before the structure is closed and secured, all litter, trash, and other debris must
4 be removed from the premises.
- 5 2. All windows, doors, and other openings must be closed, securely locked, and, if
6 readily accessible, boarded up with substantial material, including masonry,
7 approved by the Building Official. The Building Official may require windows
8 facing streets to be boarded with lexan, vinyl, or similar material, protected by
9 security grills, or both.
- 10 3. As long as the structure remains unrehabilitated:
- 11 a. it must be kept boarded,
- 12 b. the premises must be conspicuously posted against trespass, and
- 13 c. the premises must be kept free of occupants, litter, trash, debris,
14 high grass, and weeds at all times, and
- 15 d. the structure's roof and flashing must be sound, right, and without defects
16 that admit rain.
- 17 4. Boarding, posting, and cleaning, however, do not relieve the owner of
18 responsibility to demolish or to repair and maintain the property in conformity
19 with this Code.
- 20 5. The Building Official may post a sign to inform the public that the structure is a
21 vacant structure and to provide additional information about the structure's status.
- 22 6. The structure may not be reoccupied until the Building Official has issued an
23 occupancy permit.

24 **116.4.4 Emergency condition.** A vacant structure that is not kept boarded and free from
25 accumulations of debris and high vegetation or that, in the opinion of the Building
26 Official, is so dangerously unsound or so deteriorated that rehabilitation is not feasible,
27 constitutes an emergency condition that imminently threatens the public health and safety
28 and requires immediate resolution.

29 **116.4.5 Rodenticide procedure.** See § [3314] 3318 of this Code.

30 **116.4.6 Notice to Public Works.** Whenever the Building Official determines a structure
31 to be vacant, the Building Official must promptly notify the Director of Public Works of
32 that determination. On receipt of the notice, the Director of Public Works must proceed
33 to cut off water service, as provided in City Code Article 24, § 2-3 {"Cut-off for
34 [nonpayment"}.] ARREARAGE"}.

35 **116.5 Rehabilitation, demolition, and stabilization.** Except as otherwise authorized or

Council Bill 24-0502

1 required under this section, a structure found to be unsafe or unfit for human habitation or
2 other authorized use must be rehabilitated and an occupancy permit obtained.

3 **116.5.1 Permitted demolition.** On timely appeal of an order to rehabilitate, the Building
4 Official may permit an owner to demolish an unsafe structure instead of rehabilitating it
5 if, in the Building Official's opinion, demolition is not detrimental to the immediate
6 neighborhood.

7 **116.5.2 Required demolition.** The Building Official may order the immediate
8 demolition of any unsafe structure that, in the Building Official's opinion, is either so
9 dangerously unsound or so deteriorated that rehabilitation is not feasible.

10 **116.5.2.1 Appeal.** The recipient of an order to demolish an unsafe structure may
11 request administrative review of the order under § 128 {"Administrative and Judicial
12 Review"} of this Code.

13 **116.5.2.2 Rescission of demolition order.** The Building Official may rescind or
14 modify a demolition order if the owner demonstrates the financial ability and requisite
15 expertise to rehabilitate the structure within a reasonable time, as determined by the
16 Building Official, and agrees to comply with a specified timetable. Failure to comply
17 with an agreed timetable reinstates the demolition order.

18 **116.5.3 Stabilization.** The Building Official may permit or order an interim stabilization
19 of an unsafe structure pending its rehabilitation.

20 **116.5.4 Reoccupancy of rehabilitated structure.** A structure declared unsafe or unfit
21 for occupancy may not be reoccupied until the Building Official has:

- 22 1. abated the violation notice or order, and
- 23 2. issued an occupancy permit.

24 **116.6 Vacant lot maintenance.** When a structure has been demolished under this § 116, the
25 premises must be made to conform to the provisions of this Code and of the {rules and}
26 regulations adopted under this Code.

27 **116.7 Remedial action by Building Official.** The Building Official may take action under
28 this § 116.7 whenever the owner, agent, or person in control cannot be found or fails to
29 comply with a notice or order served under this Code:

- 30 1. to repair, rehabilitate, stabilize, or demolish an unsafe structure,
- 31 2. to clean, close, board, fence, or otherwise safeguard a vacant structure or lot, or
- 32 3. to remove high grass and weeds or litter, trash, and debris from
33 the premises of a vacant structure or lot.

34 **116.7.1 Actions authorized.** The Building Official may proceed to:

- 35 1. have a receiver appointed, or

Council Bill 24-0502

- 1 2. complete all or any part of the required work through officers,
2 agents, employees, or contractors.

3 **116.7.2 Entry to property.** Before taking any remedial action, the Building Official
4 may enter the premises, without additional notice, to determine the extent of deterioration
5 and the feasibility of rehabilitation.

6 **116.7.3 When additional notice not required.** Boarding, cleaning, fencing, and
7 otherwise safeguarding a vacant structure or lot that is subject to an expired violation
8 notice is an emergency action that requires no additional prior notice.

9 **116.7.4 Remedies nonexclusive.** Remedial action under this § 116 does not preclude
10 any other enforcement action authorized by this Code.

11 **116.8 {Reserved}**

12 **116.9 “Abandoned” property.** If a property is cited as “vacant” or “unfit for human
13 habitation” on a violation notice issued under this § 116, the property is considered to be
14 cited as “abandoned” or to be in need of substantial repair within the meaning of the State
15 Tax-Property Article, Title 14, Subtitle 8.

16 **116.10 Effect of designation.** On issuance of a violation notice that designates a structure
17 to be a vacant structure, the structure is deemed to be condemned.

18 **Section 117 Emergency and Corrective Measures**

19 **117.1 Power of Building Official in emergencies.** In an emergency where life, health,
20 safety, or property is in immediate danger, the Building Official may immediately take any
21 action necessary to protect the endangered life, health, safety, or property, without complying
22 with the notice provisions of this Code.

23 **117.2 Photographs of dangerous conditions.** In all emergencies, if it is practical and if
24 enough time is available to do so, the Building Official must cause the dangerous or unsafe
25 condition that created the emergency to be photographed before any demolition or other work
26 or operation is begun to eliminate the dangerous or unsafe condition.

27 **117.3 Closing streets.** When necessary for the public safety, the Building Official may
28 temporarily close adjacent structures and request the Director of Transportation to close
29 adjacent sidewalks, streets, and other public ways and prohibit them from being used. The
30 Building Official may temporarily close adjacent sidewalks, streets, and other public ways
31 only pursuant to an agreement with the Department of Transportation.

32 **117.4 Labor and material for emergency work.** In an emergency where life, health,
33 safety, or property is in immediate danger and it is necessary to perform any work or
34 operation to protect that life, health, safety, or property, the Building Official may employ the
35 persons and buy the materials needed to perform the work or operation as expeditiously as
36 possible.

Council Bill 24-0502

1 **117.5 Liability for costs of emergency work.** Liability for expenses incurred in the course
2 of performing emergency work and the procedure for collecting resultant debts and liens are
3 as provided in § 118 {"Liability for Expenses..."} of this Code.

4 **Section 118 Liability for Expenses and Collection of Debts and Liens**

5 **118.1 Scope.** This § 118 applies to all cases where:

- 6 1. the Building Official enforces any provision of this Code, including but not limited to:
 - 7 a. the elimination of any safety, health, or fire hazard,
 - 8 b. the elimination of any nuisance, blight, or insanitary condition,
 - 9 c. the removal of any abandoned or illegally constructed structure or other
10 object, or
 - 11 d. the taking of any corrective action in emergencies or otherwise, and
- 12 2. in connection with those efforts, the Building Official or any department, agency,
13 unit, or body corporate and politic of this State, including the Maryland Stadium
14 Authority:
 - 15 a. furnishes or causes to be furnished any labor, supervision, equipment, or
16 materials, or
 - 17 b. performs or causes to be performed any inspection, work, or operation to
18 eliminate the hazard or condition or to remove the structure or other object.

19 **118.2 Liability and lien for expenses.** In the cases described in § 118.1, the entire amount
20 of the Building Official's expenditures and of the expenditures incurred by any department,
21 agency, unit, or body corporate and politic of this State, including the Maryland Stadium
22 Authority, together with all incidental costs and all accrued penalties:

- 23 1. are a personal debt owed to the City jointly and severally by every person made liable
24 under this Code, and
- 25 2. are a lien in favor of the City on the land and improvements in respect to which the
26 expenditures were made.

27 **118.3 When debts and liens become effective.** All debts become due and owing to the City
28 immediately when the work is completed or the expenditure made. All liens become
29 effective immediately after the Building Official notifies the Bureau of Liens that appropriate
30 notice has been given or that a structure has been posted in accordance with this Code.

31 **118.4 Collection of debts and liens.** All debts due and liens incurred under this § 118:

- 32 1. are collectible from any assets of the persons made liable under this Code,
33 including a former owner, and

Council Bill 24-0502

- 1 2. may be collected and enforced in the same way that the City collects and
2 enforces other debts due to it or liens in its favor.

3 **118.5 Priority over other liens and encumbrances.** All debts and liens incurred under this
4 § 118 have priority over all other liens and encumbrances, except taxes or other government
5 assessments.

6 **Section 119 {Reserved}**

7 **Section 120 Condemnation Proceedings**

8 **120.1 In general.** If any land, structure, or equipment becomes unsafe or dangerous to
9 public health or safety, the Building Official may condemn the land, structure, or equipment
10 as provided in this § 120 and issue a condemnation notice as provided in § 123 {"Notices"}
11 of this Code. The issuance of a violation notice is not a prerequisite for the condemnation of
12 real property.

13 **120.2 Posting notice.** If the Building Official condemns any land, structure, or equipment,
14 the Building Official must cause a notice to be conspicuously displayed on the condemned
15 land, structure, or equipment.

16 **120.2.1 Contents.** The notice must:

- 17 1. be at least 24 inches wide 8 inches high,
18 2. be signed by the Building Official, and
19 3. advise the public that:
20 a. the particular land, structure, or equipment has been condemned as being
21 unsafe or dangerous for occupancy or use, and
22 b. the public is warned to keep away.

23 **120.2.2 Emergencies.** In case of an emergency where life or property may be in
24 immediate danger, the Building Official need not post the property and may proceed in
25 accordance with § 117 {"Emergency and Corrective Measures"} of this Code.

26 **120.3 Vacating condemned property.** A notice posted under § 120.2 is deemed to be
27 sufficient warning to all occupants of the condemned property to leave immediately. If any
28 occupant fails to vacate the property immediately after the notice is posted, the Building
29 Official may take whatever action is proper and expedient to remove that occupant.

30 **120.4 Receiver of condemned property.** After a property is condemned, the Building
31 Official may:

- 32 1. take any action authorized under § 120.7, or

Council Bill 24-0502

1 2. in accordance with § 121 {"Vacant Building Receiver"} of this Code, apply to
2 court for the appointment of a receiver.

3 **120.5 Status of condemned property.** After property has been condemned and posted in
4 accordance with this § 120, that property remains condemned and may not be occupied or
5 used again until the Building Official declares the property safe for occupancy or use and has
6 removed the condemnation.

7 **120.6 Order to demolish.** If, in the Building Official's opinion, a structure is so
8 dangerously unsound or so deteriorated that rehabilitation is not feasible, the condemnation
9 notice may order the owner to demolish the structure immediately.

10 **120.7 Removal of unsafe conditions.** Anytime after property has been posted in accordance
11 with this § 120, the Building Official may demolish, move, alter, repair, rehabilitate, rebuild,
12 reconstruct, or take any other appropriate action to eliminate or make safe and secure any
13 dangerous or unsafe condition. Before doing so, however, the Building Official must provide
14 the notice required by § 105.9 {"Special requirements for demolition or moving"} of this
15 Code.

16 **120.8 Condemnation of electrical work.** If any electrical wiring or equipment that has
17 been the subject of a condemnation notice is not made safe within the time required by the
18 condemnation notice, the wiring or equipment must be put out of service by cutting off all
19 electric current to it and by sealing all switches that operate in connection with the wiring or
20 equipment.

21 **120.8.1 Emergency action.** In case of an emergency where life or property is in
22 immediate danger, the Building Official may order all electric current serving the wiring
23 or equipment to be cut off and all switches that control the wiring or equipment to be
24 sealed. The Building Official's orders must be complied with immediately, regardless of
25 any other provisions of this Code that might apply.

26 **120.8.2 Permission needed to reactivate.** Whenever electric current has been cut off or
27 switches have been sealed under this § 120.8, the electric current may not be cut in and
28 the seals may not be broken, except by an authorized agent of the Building Official, after
29 all requirements of the Building Official have been complied with and the Building
30 Official has issued a certificate of approval.

31 **120.9 Condemnation of mechanical work.** If any mechanical equipment that has been the
32 subject of a condemnation notice is not made safe within the time required by the
33 condemnation notice, the mechanical equipment must be put out of service and sealed.

34 **120.9.1 Emergency action.** In case of an emergency where life or property is in
35 immediate danger, the Building Official may order the mechanical equipment to be put
36 out of service and sealed. The orders of the Building Official must be complied with
37 immediately, regardless of any other provisions of this Code that might apply.

Council Bill 24-0502

1 **120.9.2 Permission needed to reactivate.** Whenever mechanical equipment has been
2 put out of service and sealed under this § 120.9, the mechanical equipment may not be
3 put back in service and the seals may not be broken, except by an authorized agent of the
4 Building Official, after all requirements of the Building Official have been complied with
5 and the Building Official has issued a certificate of approval.

6 **Section 121 Vacant Building Receiver**

7 **121.1 Scope.** This § 121 applies to a vacant structure, as defined in § 116.4.1.2
8 {"Definitions: Vacant structure"}, for which a notice or order to rehabilitate or to demolish is
9 outstanding.

10 **121.2 In general.** The Building Official may petition the court for appointment of a receiver
11 to rehabilitate a vacant property, to demolish it, or to sell it to a qualified buyer. Except as
12 otherwise provided in this § 121, the receiver may be any person.

13 **121.3 Contents of petition.** The petition for appointment of a receiver must include:

- 14 1. a copy of the original violation notice or order, and
- 15 2. a verified pleading that:
 - 16 a. avers that the required rehabilitation or demolition has not been completed,
17 and
 - 18 b. identifies and states the qualifications of the proposed receiver, if other than
19 the Building Official.

20 **121.4 Named respondents.** The petition for appointment of receiver must name as
21 respondents:

- 22 1. the owner of the property,
- 23 2. any lien holder of record, and
- 24 3. the plaintiff in any proceeding that was timely filed under State Tax-Property Article
25 § 14-833 {"Foreclosing right of redemption"} and for which the time for securing a
26 decree of foreclosure has not yet expired.

27 **121.4.1 Effect of failure to name plaintiff.** Failure to name a person described in
28 § 121.4(3) does not prevent the action from going forward, but does prevent the
29 receiver's lien for expenses incurred in rehabilitating, demolishing, or selling the vacant
30 building from having priority over that person's lien interest.

31 **121.5 Filing with Bureau of Liens.** A notice of the proceeding, together with a copy of the
32 violation notice or order, must be filed with the Bureau of Liens. The Bureau must include a
33 record of these in its lien reports, and the property cannot be transferred without the prior
34 approval of the Building Official.

Council Bill 24-0502

1 **121.6 Notice to judgment creditors and lien holders.** After filing the petition and before a
2 receiver is appointed, the Building Official must give notice of the pendency and nature of
3 the proceedings by regular and certified mail to the last-known addresses of all judgment
4 creditors and lien holders with a recorded interest in the property.

5 **Exceptions:**

- 6 1. This notice is not required for respondents named under § 121.4 {"Named
7 respondents"} of this Code.
- 8 2. The Building Official is not required to send notices to any creditor or lien holder
9 whose interest in the property is unrecorded.

10 **121.6.1 Intervention.** Within 30 days of the date on which the notice was mailed, a
11 judgment creditor or lien holder with a recorded interest in the property may apply to
12 intervene in the proceeding and to be appointed receiver. A creditor or lien holder whose
13 interest is not recorded does not have standing to intervene in the proceeding and is not
14 eligible to be appointed receiver.

15 **121.6.2 Effect of failure to give notice.** Failure to give any required notice to any
16 interested person under this § 121 does not prevent the action from going forward, but
17 does prevent the receiver's lien for expenses incurred in rehabilitating, demolishing, or
18 selling the vacant building from having priority over that person's lien interest.

19 **121.7 Appointment of owner, etc., instead of receiver.** Instead of appointing a receiver to
20 rehabilitate or sell a vacant building, the court may permit an owner, mortgagee, or other
21 person with an interest in the property to rehabilitate or demolish it, if that person:

- 22 1. demonstrates ability to complete the rehabilitation or demolition within a reasonable
23 time,
- 24 2. agrees to comply with a specified schedule for rehabilitation or demolition, and
- 25 3. posts bond, in an amount determined by the court, as security for performance of the
26 required work in compliance with the specified schedule.

27 **121.7.1 Application to dismiss owner.** If it appears to the petitioner that the person
28 appointed is not proceeding with due diligence or in compliance with the court-ordered
29 schedule, the petitioner may apply to the court for immediate revocation of that person's
30 appointment and for appointment of a receiver. The bond posted under this section must
31 then be applied to the subsequently appointed receiver's expenses in rehabilitating,
32 demolishing, or selling the vacant building.

33 **121.8 Appointment of receiver.** If no qualified person with an ownership interest requests
34 appointment to rehabilitate or demolish the property, or if an appointee is dismissed, the court
35 must then appoint a receiver of the property for the purpose of rehabilitating and managing
36 the property, demolishing the property, or selling it to a qualified buyer.

Council Bill 24-0502

1 **121.8.1 Parties divested of authority.** On appointment of a receiver to rehabilitate,
2 demolish, or sell the property, all parties are divested of any authority to act in furtherance
3 of those goals.

4 **121.8.2 Penalties.** Any party who takes any step to rehabilitate, demolish, or sell the
5 property is subject to the penalties for contempt.

6 **121.8.3 Receiver not responsible to maintain or protect the property.** A receiver
7 appointed to rehabilitate, demolish, or sell a vacant building has no duty to, and is not
8 personally liable for failing to, maintain the property or protect the property from casualty
9 or loss.

10 **121.9 Powers of receiver appointed to rehabilitate or demolish.** A receiver appointed to
11 rehabilitate or demolish a vacant building, in addition to all necessary and customary powers,
12 has the right of possession with authority to:

- 13 1. contract for necessary labor and supplies for rehabilitation or demolition,
- 14 2. borrow money for rehabilitation or demolition from an approved lending institution or
15 through a government agency or program, using the receiver's lien against the
16 property as security,
- 17 3. manage the property after rehabilitation, with all the powers of a landlord, for a period
18 of up to 2 years and apply the rent received to current operating expenses and to
19 repayment of outstanding rehabilitation expenses, and
- 20 4. foreclose on the receiver's lien or accept a deed in lieu of foreclosure.

21 **121.10 Powers of receiver appointed to sell.** A receiver appointed to sell a vacant
22 building, in addition to all necessary and customary powers, may sell the property at public
23 auction or private sale, following the provisions that apply to a receiver appointed under Rule
24 3-722 {"Receivers"} and Title 14, Chapter 300 {"Judicial Sales"} of the Maryland Rules.

25 **121.10.1 Notice of auction.** In the notice of public auction, it is sufficient to describe
26 the property by a street address and by reference to the liber and folio number of the title
27 deed recorded in the land records of Baltimore City.

28 **121.10.2 Buyer qualifications.** Before any sale, the applicants to bid in a public sale or
29 the proposed buyer in a private sale must demonstrate the ability and experience needed
30 to rehabilitate the property within a reasonable time.

31 **121.10.2.1 Application fee.** The receiver may charge a reasonable fee to applicants
32 in connection with the application to bid at a public sale or in connection with the
33 solicitation of offers for a private sale.

34 **121.10.3 Application of sale proceeds.** After deducting the expenses of the sale, the
35 amount of outstanding taxes and other government assessments, and the amount of the
36 receiver's lien, the receiver must apply any remaining proceeds of the sale, first to the
37 petitioner's costs and expenses, including reasonable attorney's fees, and then to the liens
38 against the property in order of priority.

Council Bill 24-0502

1 **121.10.4 Tax sale redemption.** A receiver may redeem a tax sale certificate at any time
2 after the receiver's appointment by court.

3 **121.11 Tenure of receiver appointed to rehabilitate.** The tenure of a receiver appointed to
4 rehabilitate a vacant building may extend no longer than 2 years after rehabilitation. Anytime
5 after rehabilitation, any party to the receivership may file a motion to dismiss the receiver on
6 payment of the receiver's outstanding costs, fees, and expenses.

7 **121.12 Final accounting.** At the end of the receiver's tenure, the receiver must file a final
8 accounting with the court.

9 **121.13 Receiver's lien for costs, etc.** Any costs or fees incurred by the receiver are a lien
10 against the property in accordance with § 118 {"Liability for Expenses ..."} of this Code.
11 The receiver's lien has priority over all other liens and encumbrances, except taxes or other
12 government assessments. The receiver must allow the petitioner's costs and expenses,
13 including reasonable attorney's fees, to be paid to the extent that the proceeds of the sale
14 permit.

15 **121.13.1 Foreclosure of lien.** A receiver may foreclose on the lien by a sale of the
16 property at public auction, following 1 public notice and notice to interested parties in the
17 manner of a mortgage foreclosure. After deducting the expenses of the sale, the receiver
18 must apply the proceeds of the sale to the liens against the property, in order of priority.
19 In lieu of foreclosure, and only if the receiver has rehabilitated the property, an owner
20 may pay the receiver's costs, fees, including attorney's fees, and expenses or may transfer
21 all ownership in the property to either the receiver or an agreed-on third party for an
22 amount agreed to by all parties to the receivership as being the property's fair market
23 value.

24 **121.14 Transfer on sale.** Following court ratification of a sale, the receiver must sign a
25 deed conveying title to the buyer, free and clear of all liens, judgments, and other
26 encumbrances. On court ratification of the sale, any secured interest of a lien holder or
27 judgment creditor automatically attaches to the proceeds from the sale, to the extent those
28 proceeds are available under § 121.10.3 {"Application of sale proceeds"}.

29 **121.15 Dismissal.** On sale of the property, the receiver must:

- 30 1. file with the court a final accounting, and
- 31 2. at the same time, file a motion with the court to dismiss the action.

32 **Section 122 {Reserved}**

33 **Section 123 Notices**

34 **123.1 In general.** All notices under this Code must be issued in accordance with this § 123.
35 However, nothing in this Code may be construed to excuse or relieve any person from
36 complying with all provisions of this Code at all times, regardless of whether any notice or
37 order has been issued by the Building Official in any particular case.

Council Bill 24-0502

1 **123.2 Classification.** Notices issued under this Code are classified as either:

17 with notice or citation”} to take action at the owner’s expense.

18 **123.3.1 Follow-up notices.** A follow-up or other subsequent notice involving the same
19 condemnation need not repeat the information contained in a prior notice as long as the
20 subsequent notice identifies the prior notice.

21 **123.4 Violation notices.** Except as specified in § 123.4.1, every violation notice must set
22 forth:

- 23 1. the location and character of the violation,
- 24 2. a reference to applicable provisions of this Code,
- 25 3. the right of the person to whom the notice is directed to request a hearing within
26 ~~10~~ [10] 21 days of the date on which the notice was served, and

2 with notice or citation"} to take action at the owner's expense.

3 **123.4.1 Follow-up notices.** A follow-up or other subsequent notice involving the same
4 violation need not repeat the information contained in a prior notice as long as the
5 subsequent notice identifies the prior notice.

6 **123.5 When notices to be issued.** Except as otherwise specified in this Code, notices must
7 be issued in all cases where legal proceedings might be necessary to enforce this Code.

8 **123.5.1 Condemnation notices.** For any land, structure, or equipment being
9 condemned, the condemnation notice must be issued to the owner of the land, structure,
10 or equipment.

11 **123.5.2 Violation notices.** For violations, the violation notice must be issued to the
12 person who committed or otherwise is responsible for the violation.

13 **123.6 Service of notice – General.** Except as otherwise specified in § 123.7 {"Service of
14 notice – Posting"}, all notices issued by the Building Official must be served on the person
15 that the notice is intended for or on any authorized agent or representative of that person.

16 **123.6.1 More than 1 person responsible.** If more than 1 person is responsible for the
17 violation or responsible for complying with this Code, as in a case of property owned by
18 more than 1 person, notice may be served on any 1 of those persons or on any authorized
19 agent or representative of any of them.

20 **123.6.2 Method of service.** A notice is properly served if:

- 21 1. served personally on the owner, agent, person in control, former owner,

3 sources can provide a more accurate address:

4 a. the tax records of the Bureau of Treasury Management, Collections Division,
5 and

6 b. the property registration files of the Department of Housing and Community
7 Development.

8 **123.8 Failure to comply with notice or citation.** If any person fails to comply with a
9 violation notice, condemnation notice, or citation, the Building Official:

10 1. may enforce the violation notice or condemnation notice by issuance of an
11 environmental citation as authorized by City Code Article 1, Subtitle 40
12 {"Environmental Control Board"},

13 2. may take whatever action is necessary and proper, including the institution of legal
14 proceedings, to compel compliance with the notice or citation or to enforce the
15 penalty provisions of this Code, and

16 3. subject to the notice requirements of § 123.8.1, may proceed to repair, rebuild,
17 demolish, or take any other action necessary to eliminate, in whole or in part, or make

19 that is the subject of the violation notice, condemnation notice, or citation.

20 **123.8.1 Notice of intent to repair, etc.** Except as provided in § 123.8.2, before the
21 Building Official proceeds to repair, rebuild, demolish, or take any other action to
22 eliminate or make safe any nuisance, blight, health hazard, or dangerous, insanitary, or

33 for unsafe structures, or

34 3. if the initial or any other prior notice or order issued by the Building Official
35 informed the recipient of the Building Official's authority to take corrective
36 action and of the recipient's right to request administrative review.

Council Bill 24-0502

1 **123.8.3 Actions not an abatement, etc.** Actions taken by the Building Official under
2 this § 123.8 do not constitute an abatement or cancellation of the underlying notice or
3 citation.

4 **123.8.4 Subsequent Citation - Unsafe Structure.** If the owner of a structure subject to
5 a violation notice issued under § 116 {"Unsafe Structures"} of this Code fails to abate a
6 citation and is issued a subsequent citation for the same cause within 12 months of the
7 first citation, the Building Official may charge an additional fine using the structure
8 described in City Code Article 1 § 40-14(e)(5c) {"Violations to which this subtitle
9 applies"}.

10 **123.9 Extension of time limit on notices.** The Building Official may extend the time within
11 which to comply with a condemnation notice or violation notice if, in the Building Official's
12 judgment, more time is needed to comply.

13 **123.10 Removal or defacement of posted notices.** No person may remove, deface,
14 damage, or change any notice, poster, or sign placed under this Code on any land, structure,
15 or other object, until the Building Official authorizes its removal.

28 Section 3806 Traffic-Mitigation Fee

29 **3806.1 Scope of section.** This § 3806 is applicable to all proposed projects located inside of
30 a Traffic-Mitigation Zone.

31 **3806.2 General.** A Traffic-Mitigation Fee is a payment that, by authority of Charter
32 Article II, §§ (40) and (47), must be paid for projects that meet the criteria established in §
33 3802.3 {"Within Traffic-Mitigation Zone"}.

34 **3806.2.1 Application and processing fee.** An application to begin the required
35 Traffic-Mitigation Fee process must be:

- 36 1. made in the form and within the time frame set forth in the rules and regulations
37 adopted under this Chapter; and
- 38 2. accompanied by a processing fee in the amount set by these rules and regulations.

39 **3806.3 Assessment of fee.**

40 **3806.3.1 Trip formula.** The rules and regulations adopted under this Chapter must
41 establish:

Council Bill 24-0502

1. procedures for determining the number of trips attributable to various types of projects in a particular Traffic-Mitigation Zone or Subzone; and
2. adjustment factors for calculating the number of non-single-occupant-vehicle trips attributable to various types of projects.

3806.3.2 Fee Rates. The fee rate per trip is as set by the Board of Estimates, in consultation with the Director, for each Zone.

3806.3.2.1 Temporary limitation on Fee Rate increases. For the period beginning when a fee rate is initially set for a Zone, and ending on December 31, 2016, the Board of Estimates may not increase the fee rate for that Zone more often than once every 5 years.

3806.3.3 Fee formula. The amount of the Traffic-Mitigation Fee assessed on a specific project is determined by multiplying:

1. the applicable rate per trip, as of the date that the permit is applied for, for the Zone where the project is located, by
2. the number of trips that the Department of Transportation attributes to the project using the procedure established under § 3806.3.1.

3806.4 Trip-Generation Credits.

3806.4.1 General. The Director must issue trip-generation credits to any proposed project that meets the requirements of this § 3806.4. Each credit issued reduces by 1 the number of trips used to calculate the amount of the Traffic-Mitigation Fee under § 3806.3.

3806.4.2 Authorized credits. Trip-generation credits are authorized as follows.

3806.4.2.1 Negotiated agreement. The Director may agree to issue trip-generation credits for a proposed project if:

1. the Mayor and City Council enter into a binding, written mitigation agreement with the developer of the project that requires the performance of specific actions that the Director determines will reduce the number of trips actually generated by the project,
2. the mitigation agreement requires the developer to require all subsequent purchasers or occupants of the property to abide by the ongoing requirements of the mitigation agreement,
3. the mitigation agreement includes a mechanism making it binding on all future successors and assigns who may acquire any interest in the property in the future,

Council Bill 24-0502

1 4. the mitigation agreement requires the Director to issue a number of credits
2 equivalent to the number of trips that the director calculates will be avoided
3 through the actions agreed to by the developer, and

4 5. the mitigation agreement, together with any adjustment factors calculated
5 using the procedure established under § 3806.3.1(2), does not reduce the total
6 number of trips that would otherwise be used to calculate the
7 Traffic-Mitigation Fee by more than 50%.

8 **3806.4.2.2 Change in occupancy within 1 year.** For the change in occupancy of a
9 structure that has been vacant for less than 1 year before the date of application for a
10 permit, the Director must issue trip-generation credits equivalent to the number of
11 trips attributable to the previous use, as calculated using the procedure established
12 under § 3806.3.1 {"Trip formula"}.

13 **3806.4.3 Buy-out of credits.** An owner or occupier of property that has benefitted from
14 the issuance of trip-generation credits may not change the use of the property in any way
15 that would no longer qualify the property for 1 or more trip-generation credits previously
16 issued unless the owner or occupier first cancels the previously issued credits.

17 **3806.4.3.1 Formula.** To cancel those credits, the owner or occupier must pay to the
18 Director of Finance an amount equal to the greater of:

- 19 1. the number of trip-generation credits being canceled, multiplied by the
20 Traffic-Mitigation Fee rate that was in force for the Zone when the credits
21 were issued, or
- 22 2. the number of trip-generation credits being canceled, multiplied by the
23 Traffic-Mitigation Fee rate that is in force in the Zone when the credits are
24 cancelled.

25 **3806.4.4 Obligation created by acceptance of credits.** The acceptance of
26 trip-generation credits under this § 3806.4 creates a binding obligation on the persons
27 accepting the credits to fulfill the representations and agreements that allowed the credits
28 to be issued. In addition to any other remedy or enforcement action, the Director may
29 enforce these obligations by seeking both legal and equitable remedies.

30 **3806.5 Right-of-way dedication set-off.** If an applicant controls property that the Director
31 determines to be necessary for the construction of a traffic-mitigation project, the Director
32 may accept the dedication of the needed property to the City's use and issue a set-off credit
33 toward the Traffic-Mitigation Fee assessed on a project in exchange. The total amount of the
34 Traffic-Mitigation Fee to be paid would then be reduced by the appraised value of the
35 property dedicated to City use.

36 **3806.6 Payment of Fees.**

37 **3806.6.1 \$50,000 or less.** If the Traffic-Mitigation Fee assessed for a proposed project is
38 \$50,000 or less, the Fee must be paid to the Director of Finance in full before any permits
39 for the work are issued.

Council Bill 24-0502

1 **3806.6.2 More than \$50,000.** If the Traffic-Mitigation Fee assessed for a proposed
2 project is more than \$50,000, the Director of Transportation may negotiate installment
3 payments to be made over a period of up to 5 years from the issuance of a building permit
4 for all amounts in excess of \$50,000. The initial payment of at least \$50,000 must be
5 paid to the Director of Finance in full before any permits for the work are issued. Any
6 installment plan under this § 3806.6.2 requires the approval of the Board of Estimates to
7 become effective.

8 **3806.6.2.1 Interest to be charged on installment payments.** If a Traffic-Mitigation
9 Fee is to be paid in installments under an agreement authorized by § 3806.6.2,
10 installment payments must include an additional interest charge at the current City
11 borrowing rate as determined by the Director of Finance.

12 **Section 3807 Use of Fees**

13 **3807.1 Separate revenue accounts.** Traffic-Mitigation Fees collected under this Chapter
14 are to be deposited to the General Fund and accounted for in separate revenue accounts
15 designated to indicate precisely how much revenue is derived from each Traffic-Mitigation
16 Zone.

17 **3807.2 Fees to benefit Zone of origin.** Subject to appropriation, revenue derived from
18 Traffic- Mitigation Fees in each Traffic-Mitigation Zone must be used only for the purposes
19 described in § 3807.3 or for:

- 20 1. designing and constructing projects to benefit the transportation infrastructure of the
21 Zone from which the fees derive, as approved by the Planning Commission in the
22 Traffic-Management Plan adopted under § 3805.2 {"Traffic-Management Plans"}.
- 23 2. designing and constructing projects to benefit the transportation infrastructure of the
24 Zone from which the fees derive, as certified by the Director, if the Planning
25 Commission has not adopted a Traffic-Management Plan under § 3805.2, or
- 26 3. defraying the planning and administrative costs, of no more than 10% of all revenue
27 collected, of implementing this Chapter.

28 **3807.3 Fees may defray cost of site access improvements.**

29 **3807.3.1 Site access improvements.** Subject to the approval of the Board of Estimates,
30 the Director may permit up to 33% of the Traffic Mitigation Fee, after deduction of
31 credits, paid by an applicant to be used for minor site access improvements, including
32 turning lanes, acceleration/deceleration lanes, traffic signals, or similar improvements.

33 **3807.3.2 Use of Fees.** Fees appropriated under this § 3807.3 may be either:

- 34 1. rebated to the applicant pursuant to an agreement requiring the applicant
35 to construct these improvements; or
- 36 2. retained by the City for the purpose of constructing these improvements.

Chapter 11 Electives

Section 1101.1 Scope This Chapter specifies elective requirements for all projects. It is designed to implement additional measures to support Baltimore City’s sustainability goals, mitigate the impacts of building, and provide a greater benefit to the citizens of Baltimore City. Electives are applicable to buildings, structures, and building sites subject to the provisions of this Code. Owners have some flexibility selecting electives, but must adhere to the mandatory point provisions identified below.

Section 1101.2 Compliance Each project must comply with § 1101.3 {“Mandatory Provisions”} by complying with either § 1101.3.1 {“Required Electives”} or § 1101.3.2 {“Zero Energy Elective”}.

Section 1101.3 Mandatory Provisions

1101.3.1 Required Electives (10 Points). A total of 10 points must be selected and achieved from among the following categories:

- a. Water Efficiency – at least 1 point
- b. Energy Efficiency – at least 1 point
- c. Indoor Environmental Quality – at least 1 point
- d. Any 1 or more of the categories listed in § 104.4 – 7 points

1101.3.2 Zero Energy Elective (10 Points). Choose one of the following paths:

1101.3.2.1 Path 1. Provide energy model for building consumption, solar generation, or other renewable generation report for yearly generation, and a summary report noting building EUI, solar generation, and a summary of energy savings measures implemented by the building. For the purposes of this credit, on-site solar and community solar of which the property is a member generated within 15 miles of the site may be considered. Provide energy information as required in the Green Building Statement of Compliance.

1101.3.2.1 Path 2. If the building pursues a net zero certification, such as International Living Futures Institutes Zero Energy or energy Petal, or LEED Zero Energy, the building may provide documentation showing acceptance into the monitoring period by those agencies in lieu of plans and energy calculations. Provide energy information as required in the Green Building Statement of Compliance.

Section 1101.4 Elective Categories

15 charging stations based on a design load of not less than 40 amp per parking
16 space at a supply voltage of not less than 208-240 volt, and have space
17 reserved for future installation of a branch circuit overcurrent protective
18 device. Raceways must terminate into a listed cabinet, box, or enclosure in

Section 612 Splash Pads

612.1 GENERAL. CONSTRUCTION AND OPERATION OF ANY SPLASH PAD SHALL COMPLY WITH THIS § 612.

612.1.1 [612.1] Definitions. In this Chapter, “splash pad” (also known as “spray pad”, “wet deck”, or “interactive water play feature”) means any indoor or outdoor structure designed to allow for public recreational activities with recirculated, filtered, and treated water that:

1. includes sprayed, jetted, or other water sources contacting bathers, but
2. does not incorporate standing or captured water as part of the bather activity area.

[612.2 General. Construction and operation of any splash pad must comply with §§ 612.3 through 612.8.]

612.2 [612.3] Safety hazards. All parts of the splash pad that can be accessed by splash pad users must be designed and constructed to not present safety hazards to the users.

612.3 [612.4] Decking. A deck of not less than 4 feet (1296 mm) in width must be provided around the perimeter of the splash pad. The deck must be sloped away from the splash pad.

612.4 [612.5] Splash pan zone. The splash pad zone must comply with [§§ 612.5.1 through 612.5.3] §§ 612.4.1 THROUGH 612.4.3.

612.4.1 [612.5.1] Surface. Splash pad zone surfaces must have a slip-resistant and cleanable surface. The manufacturer of manufactured zone surfaces must certify that the surfacing is suitable for aquatic and chlorinated environments. Direct suction outlets from a splash pad are prohibited.

Council Bill 24-0502

1 **612.4.2 [612.5.2] Slope and water collection.** Splash pad zone surfaces must slope
2 to one or more drain points so that only water from the splash pan zone flows back to a
3 gravity fed collection tank. The slope must prevent the accumulation or pooling of water
4 and may not exceed ½ inch (12.7 mm) per foot. Drain openings in the splash pad zone
5 surfaces that can be accessed by users may not allow a ½ inch (12.7 mm) diameter dowel
6 rod to be inserted into the opening. Drain covers in splash pad zone surfaces must be flat
7 and flush with the zone surface and must require tools for removal. The manufacturer of
8 the drain cover must certify that the covers comply with the physical testing and finger-
9 and-limb entrapment requirements of Sections 3 and 6, respectively, of APSP 16.

10 **612.4.3 [612.5.3] Nozzles within splash pad zones.**

11 **612.4.3.1 [612.5.3.1] General.** Nozzles that spray water from the splash pad zone
12 must be flush with the zone surface. Openings in the nozzles may not allow a ½ inch
13 (12.7 mm) diameter dowel rod to be inserted into the opening. The water velocity
14 from the orifice of any water nozzle may not exceed 20 feet (6.1 m) per second.

15 **612.4.4.2 [612.5.3.2] Nozzles not on walking surfaces.** Nozzles that are not on
16 walking surfaces must be designed to be clearly visible.

17 **612.5 [612.6] Water sanitation.** The water sanitation must consist of the equipment
18 covered in §§ 612.6.1 through 612.6.5.

19 **612.5.1 [612.6.1] Water collection and treatment tank.** A splash pad must drain to
20 a collection and treatment tank. The inside of the tank must be accessible for cleaning
21 and inspection. The access hatch or lid must be locked or require a tool to open. The
22 tank capacity may not be less than 1,000 gallons or 10 times the number of gallons in a
23 minute when all nozzles are operating simultaneously, whichever is greater. The volume
24 water in the tank, at the design water level, may not decrease more than 15% of that
25 volume when all pumps and discharge piping fill with water to the discharge points of all
26 nozzles. The tanks must be provided with a means to empty all water in the tank for the
27 purposes of servicing or cleaning.

28 **612.5.2 [612.6.2] Filtration pump.** The filtration pump must be sized to turnover the
29 surge basin capacity in 30 minutes or less. The intake for the pump must be located to
30 draw water from the lowest elevation in the treatment tank.

31 **612.5.3 [612.6.3] Spray nozzle and water feature disinfection.** Spray nozzles and
32 water features must be supplied by water from the water collection and treatment tank
33 that is equipped with filtration and sanitizing equipment required by Chapter 3 and this
34 Chapter. Where separate water feature pumps are installed, controls must prevent those
35 pumps from operating when the filtration pump is not operating.

Council Bill 24-0502

1 **612.5.4 [612.6.4] Disinfection system.** In addition to any filtration and sanitizing
2 equipment requirements of Chapter 3 and this Chapter, all water supplied to spray nozzles
3 or other water that can be accessed by a user, must pass through a secondary disinfection
4 system before discharge to the user. The secondary disinfection system must be listed and
5 labeled to NSF 50 as having a single-pass, three-log reduction of cryptosporidium
6 surrogate.

7 **612.5.5 [612.6.5] Make-up water system.** The water collection and treatment tank must
8 be provided with a make-up water system that is supplied with potable water.

9 **612.6 [612.7] Operating instructions.** In addition to the documentation and instruction
10 requirements of Chapters 1 and 3, the operating instructions for a splash pad must require that
11 the circulation system be operated continuously for not less than 4 turnovers prior to
12 operation of the pumps for the spray nozzles and other water features systems.

13 **612.7 [612.8] Lighting.** Where a splash pad will be in operation at night or during periods
14 of inadequate natural lighting, artificial lighting must be provided in accordance with the
15 same requirements for pool deck area lighting in § 321.2.2.
