A RESOLUTION ENTITLED

1 A COUNCIL RESOLUTION concerning

2 **Baltimore City Safe Childhood Task Force**

3 FOR the purpose of creating the Baltimore City Safe Childhood Task Force to review and
4 evaluate Baltimore City's investigative, administrative, and judicial handling of cases of
5 child abuse, child neglect, and child sexual exploitation; to review local, state, and federal
6 coordinated interagency response to address the physical, mental, and social needs of the
7 victims and to ensure the proper adjudication and long-range supervision of the perpetrators;
8 and to evaluate the effectiveness of current efforts to educate the public about the dangers
9 our children face and the steps adults can take to ensure Baltimore City's children enjoy a
10 safe and secure childhood.

11 **Recitals**

12 According to data recently released by the U.S. Department of Health and Human Services
13 (HSS) in *Child Maltreatment 2006*, an annual report of data collected from the States' child
14 protective services (CPS) agencies via the National Child Abuse and Neglect Data System, an
15 estimated 905,000 children were found to be victims of abuse or neglect in fiscal year 2006,
16 representing a rate of 12.1 per 1,000 children in the population. The number and rate of victims
17 has decreased since 2002, when there were an estimated 910,000 victims at a rate of 12.3 per
18 1,000 children.

19 Prevent Child Abuse America, a national organization that provides leadership to promote
20 and implement prevention efforts at both the national and local levels, reports that maltreatment
21 led to the deaths of 1,530 children nationwide, an average of 4 children every day during the
22 HSS reporting period. And, although Maryland did not provide statistics to either the HSS study
23 or to Prevent Child Abuse America, recent media reports conclude that the maltreatment of
24 children in this State led to the death of at least 6 children since 2003, despite the authorities'
25 knowledge and official records of prior incidences of maltreatment.

26 *State Secrecy and Child Deaths in the U.S.*, a joint report of the Children's Advocacy
27 Institute and First Star concludes that Maryland is among the 10 worst states when it comes to
28 releasing information to the public about child abuse in cases involving death or serious injury.
29 The report warns that this lack of information constitutes a serious barrier to the social,
