

<b>FROM</b>	NAME & TITLE	Theodore Atwood, Director	CITY of <b>BALTIMORE</b> <b>MEMO</b>	
	AGENCY NAME & ADDRESS	Department of General Services 800 Abel Wolman Municipal Building		
	SUBJECT	<b>CITY COUNCIL BILL 11-0660</b>		

**TO**

DATE: March 11, 2011

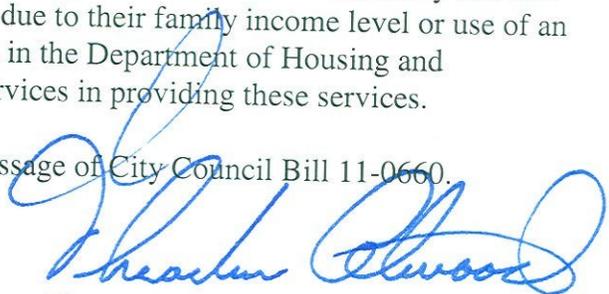

The Honorable President and Members  
of the Baltimore City Council  
c/o Karen Randle  
Room 400 - City Hall

I am herein reporting on City Council Bill 11-0660 introduced by the Council President on behalf of the Administration (Department of Finance).

The purpose of the Bill is to provide a Supplementary Federal Fund Appropriation in the amount of \$177,000 to the Department of General Services – Program #9916, to provide funding to support energy efficiency and conservation programs serving low-to-moderate income residents.

The Department of General Services is evaluating, developing, and implementing strategies to promote energy conservation and efficiency. As part of this on-going effort, the City was awarded a grant of \$177,000 from the Maryland Energy Administration. This grant will enable the Department of General Services to replace inefficient furnaces and provide building shell improvements as a complement to the Baltimore Gas and Electric Company, City weatherization, and DOE Energy Efficiency and Conservation Block Grant programs. The funds will enable Baltimore City to provide energy conservation and efficiency services to families that are ineligible for other programs due to their family income level or use of an oil-based furnace. The Office of Weatherization in the Department of Housing and Community Development will assist General Services in providing these services.

The Department of General Services supports passage of City Council Bill 11-0660.

Theodore Atwood  
Director
