June 8, 2009

The Baltimore City Health Department (BCHD) is pleased to provide testimony in response to Council Bill 09-0343. The purpose of this bill is to correct certain technical errors and omissions in the City Code; repeal certain obsolete or otherwise unnecessary provisions; correct, clarify, and conform certain language; and provide for a special effective date.

Under the Baltimore City Health Code, the Health Commissioner must publish a list of food facilities and other establishments that, during the preceding calendar month, have had their licenses suspended or revoked or that have been closed for health code violations. That list must be published by posting on the Department's website and distribution to neighborhood associations. 09-0343 corrects the identification of the City agency that maintains the Community Association Directory.

The Health Department has no opposition to this correction.
