Director

1. ROLL CALL
2. APPROVAL OF MINUTES
3. MINOR AMENDMENT AND FINAL DESIGN APPROVAL/ MONTGOMERY PARK BUSINESS CENTER PUD – 7-ELEVEN STORE AND GAS STATION – 1769 WASHINGTON BOULEVARD (Tenth District)

*(Postponed to October 18, 2012)*

4. CITY COUNCIL BILL #12-0123/ BUILDING, FIRE, AND RELATED CODES – 2012 EDITION (City Council President – Administration)

For the purpose of adopting a revised Building, Fire, and Related Codes Article, comprising the Maryland Building Performance Standards (effective January 1, 2012), the International Building Code (2012 Edition), the International Electrical Code (2011 Edition), the International Fuel Gas Code (2012 Edition), the International Mechanical Code (2012 Edition), the International Plumbing Code (2012 Edition), the International Property Maintenance Code (2012 Edition), the International Fire Code (2012 Edition), the International Energy Conservation Code (2012 Edition), and the International Residential Code for One- and Two-Family Dwellings (2012 Edition), all as supplemented, amended, or otherwise modified by this Ordinance; providing for the effect, construction, and effective date of these new standards and codes; conforming, correcting, and clarifying certain language; and generally relating to the adoption of new building, fire, property maintenance, electrical, plumbing, mechanical, and related codes for Baltimore City. (Citywide)

Periodic Update: A new version of the International Building Code (IBC) is written and released every three years. The update is then adopted into State law under the Maryland Building Performance Standards (MBPS). As most recently made effective, dated January 1, 2012, these Standards consist of three parts: the 2012 IBC, the 2012 International Residential Code for One- and Two-Family Dwellings, and the 2012 International Energy Conservation Code. After adoption at the State level with their modifications, local jurisdictions may then adopt the same Standards – either in whole or in parts, and with local modifications.

**Recommendation:** Approval

5. CITY COUNCIL BILL #12-0108/ REZONING – 1101 NORTH PATTERSON PARK AVENUE (Councilmember – Warren Branch)

For the purpose of changing the zoning for the property known as 1101 North Patterson

Park Avenue, as outlined in red on the accompanying plat, from the R-8 Zoning District to the B-2-2 Zoning District. (Thirteenth District)

This bill would rezone an end-of-row building at the northeast corner of Patterson Park Avenue and Chase Street from residential to commercial. The bill was requested by a private club which desires to use the building; although their use would be allowed in the R-8 zone, the property has insufficient lot area to qualify for the purpose. The proposed B-2 zoning would effectively remove the lot area requirement now applying to the property. Because there have not been sufficient changes in the block or the neighborhood that rise to the level required by Article 66-B of the Maryland Code, and as there is no evidence that the original 1971 zoning of this property was a mistake, staff recommends disapproval of this bill.

Staff notified the Middle East Truth and Reconciliation Community Council, HEBCAC, EBDI, the property owner, and the Councilman of this action.

**Recommendation:** Disapproval

**6. CITY COUNCIL BILL #12-0118/ REZONING – 2719 ASHLAND AVENUE**  
(Councilmember – Warren Branch)

For the purpose of changing the zoning for the property known as 2719 Ashland Avenue, as outlined in red on the accompanying plat, from the R-8 Zoning District to the B-1-1 Zoning District. (Thirteenth District)

*(Postponed to October 18, 2012)*

### STAFF REPORT

*Thomas J. Stosur*  
Director

**April 5, 2012**

**REQUEST:** Baltimore City Landmark Designation / Turnbull Building - 311-313 W. Baltimore

**RECOMMENDATION:** Approval

**STAFF:** Melvin Hicks

**PETITIONER(s):** Commission for Historical and Architectural Preservation (CHAP)

**OWNER:** Ibrahim Sheikh, Maryland Management and Restoration

#### **SITE/GENERAL AREA**

**Site Conditions:** The property is improved with an early 20th century commercial building with Neo-classical architectural elements. It is five stories on its north façade (West Baltimore St), and six stories on its south elevation.

**General Area:** The building is located on the block between West Baltimore Street and Redwood Street in the Market Center, or Westside neighborhood of Baltimore.

#### **HISTORY**

There are no previous legislative or Planning Commission actions regarding this site.

#### **CONFORMITY TO PLANS**

This action is consistent with the City of Baltimore's Comprehensive Master Plan, with respect to protecting and enhancing the preservation of Baltimore's historic buildings and neighborhoods.

#### **ANALYSIS**

On March 13, 2012, the CHAP Commission recommended approval of an early 20th century commercial warehouse building known as The Turnbull Building for designation as a Baltimore City Landmark. The building was designed by Bayard Turnbull, Baltimore architect, for his father, Lawrence Turnbull, who was a significant figure in literary circles both in Baltimore and nationally. It is one of several designed by Bayard Turnbull – one of which, the Grace Turnbull House, is listed as a Baltimore City Landmark. In addition, many of the owners of the firms that rented this building were leaders in civic and religious organizations in Baltimore. The structure is a fine example of an early 20th century commercial warehouse building. Constructed two years after the Baltimore Fire, the building boasted all of the modern technologies available at

the time; while its exterior is reminiscent of Greco-Roman grandeur with ornate Neo-classical embellishments that exhibit the pride that the Turnbolls took in this building. The building is also graced with a sculpted face that is likely intended to represent Lawrence Turnbull.

This building is representative of the majority of the garment factories in Baltimore – smaller warehouses that were rented to multiple firms. The clothing industry was the primary manufacturing activity in Baltimore during the late 19th and early 20th centuries; Baltimore was second largest clothing manufacturer in the country. This factory was located in the heart of the garment manufacturing district, which was located close to Camden Station and the harbor. This location took advantage of the proximity to both the railroad and ships that would bring raw materials and distribute the manufacturing company's products to the region or nation. Items produced by the companies in this building were also sold in the various shops just around the corner on Howard St. – the City's major commercial street. A few of the firms in this building produced national and regional brands.

The Turnbull Building meets CHAP Landmark Designation Standards:

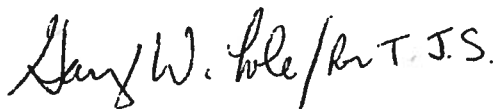

- B. A Baltimore City Landmark may be a site, structure, landscape, building (or portion thereof), place, work of art, or other object which:
1. Is associated with events that have made a significant contribution to the broad patterns of Baltimore history;

*The Turnbull Building was a factory and warehouse that housed many firms involved in manufacturing – including national and local garment manufacturing firms, a hat maker, and others. This building is representative of the majority of the garment factories in Baltimore – smaller warehouses that were rented to multiple firms. It also played a role in local labor movements in the early-to-mid-twentieth century.*

2. That are associated with the lives of persons significant in Baltimore's past;

*The building was designed by Bayard Turnbull, Baltimore architect, for his father, Lawrence Turnbull, who was a significant figure in literary circles both in Baltimore and nationally. It is one of several designed by Bayard Turnbull – one of which, the Grace Turnbull House, is listed as a Baltimore City Landmark. In addition, many of the owners of the firms that rented this building were leaders in civic and religious organizations in Baltimore.*

Staff has notified the following of this action: Downtown Partnership, Baltimore Heritage, Baltimore AIA Chapter, Baltimore City Historical Society, Preservation Maryland and City Council Repetitive.
