

Snow-Melting Mats

Metal shovels can be harsh on concrete, and some applied chemicals can be damaging. But you'll have no need for them when you have a snow-melting mat, making it easy to de-ice a slippery driveway or sidewalk. With powerful heating elements between two layers of heat-resistant rubber, these mats can melt snow within an hour or two. Easy to store in summer and lay down in winter, these non-slip rubber mats plug into any electric outlet or retrofit specifically for heavy use/commercial outlet use and get the job done fast.

Anderson-Bolds 24050 Commerce Park Road, Beechwood, Ohio 44122 Telephone 1-866-360-9810 Fax: 216-360-0425 info@anderson-bolds.com.
