

**CITY OF BALTIMORE
COUNCIL BILL 12-0013R
(Resolution)**

Introduced by: Councilmembers Middleton, Henry, Cole, Stokes, Kraft, Scott, Mosby, Spector,
Clarke, Welch, Branch, Holton, Curran, President Young
Introduced and read first time: January 30, 2012
Assigned to: Urban Affairs and Aging Committee
Committee Report: Favorable
Adopted: June 4, 2012

A COUNCIL RESOLUTION CONCERNING

**1 Informational Hearing – Office of Aging and CARE Services – Commission on Aging and
2 Retirement Services (CARE)**

3 FOR the purpose of of requesting the Commissioner of Health and the Acting Commissioner of
4 CARE Services to address the City Council on the transition of CARE from an independent
5 entity to a program under the Health Department’s Office of Aging and CARE Services; to
6 present information on the services available to the elderly; to share plans to address delivery
7 of services to meet the projected increase in the elderly population; and to discuss the
8 methods used to enable Baltimore City’s elderly residents to be aware of and to access
9 federal, state, city, non-profit, and private services and resources.

10 Recitals

11 The Maryland Department of Aging 2009 – 2012 State Plan on Aging introductory message
12 from the Secretary states, in part: “As you know, we face a major demographic challenge in the
13 years ahead. In year 2000, the number of seniors in Maryland was just over 800,000. Today,
14 there are about 900,000, and in five years there will be over one million seniors in Maryland. By
15 2030, the number is projected to increase to about 1.7 million seniors.”

16 The report addresses the need to plan for the impact that the retirement of Maryland’s baby
17 boomers will bring: “Fortunately, not all 1.7 million seniors will be looking to the State for
18 assistance...However as the population increases, so will the actual number of persons who will
19 require some assistance. That assistance may take the form of subsidies to help pay for
20 community-based long-term care in order to avoid less desirable and more costly nursing home
21 care, protection for people who reside in nursing homes, and the provision of programs and
22 services that will keep people healthy and engaged in community life.”

23 Demographic facts and figures included in the Department’s Fiscal Year 2010 budget
24 presentation show that:

- 25 • Individuals over 85 are the fastest growing segment of the population. This group
26 will grow in number, statewide, from 66,902 in 2000, to 173,355 by the year 2030.

EXPLANATION: Underlining indicates matter added by amendment.
~~Strike out~~ indicates matter stricken by amendment.

Council Bill 12-0013R

- 1 • In 2,000, 67.4% of Maryland seniors resided in Baltimore City and in Anne Arundel,
2 Baltimore, Montgomery and Prince George’s counties. In 2030, these will remain
3 the jurisdictions with largest number of individuals over 60.
- 4 • Low-income older individuals are concentrated in the Baltimore Metropolitan Area.
5 The 2000 Census showed that 63,978 older Marylanders lived in poverty as defined
6 by federal poverty guidelines.

7 The Population References Bureau’s Reports on America: First Results From the 2010
8 Census, July 2010, in looking ahead to 2020 finds that 1 in 6 U.S. residents could be age 65 or
9 older, as a large number of baby boomers reach retirement age by that year. State and federal
10 studies show that in Maryland, a large percentage, if not the largest percentage of Maryland’s
11 elderly, will continue to live in Baltimore City where CARE, in partnership with other senior-
12 serving organizations, is the primary public agency in the City responsible for advocating for and
13 delivering services to them, their families, and care givers.

14 The Baltimore City Commission on Aging and Retirement, an organization that was created
15 in 1973, by Ordinance of the Mayor and City Council, to advocate for older Baltimoreans by
16 developing, coordinating, and funding programs, services and activities for seniors and
17 establishing a pre-retirement education program, was moved to the Health Department, effective
18 July 1, 2010, to address a City-wide budgetary shortfall. Under the move, City officials
19 maintained that the program would remain “exactly” the same, creating a “one-stop shop” for
20 seniors while saving about \$500,000 in the City’s 2011 budget.

21 Baltimore City has a responsibility to make certain that today’s and tomorrow’s elderly
22 citizens age with dignity and choices that allow for a safe, productive, and fulfilling life as
23 participating members of our communities and to ensure that their well-being is not subject to the
24 vacillations of the City budget.

25 **NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF BALTIMORE,** That The
26 Commissioner of Health and the Acting Commissioner of CARE Services are requested to
27 address the City Council on the transition of CARE from an independent entity to a program
28 under the Health Department’s Office of Aging and CARE Services; to present information
29 on the services available to the elderly; to share plans to address delivery of services to meet the
30 projected increase in the elderly population; and to discuss the methods used to enable
31 Baltimore City’s elderly residents to be aware of and to access federal, state, city, non-profit,
32 and private services and resources.

33 **AND BE IT FURTHER RESOLVED,** That a copy of this Resolution be sent to the Mayor, the
34 Commissioner of Health, the Acting Commissioner of CARE Services, and the Mayor’s
35 Legislative Liaison to the City Council.
