Dear Councilmember Blanchard,

I hope this message finds you well.

First, I want to sincerely thank you for attending our Marble Hill community meeting on May 20, 2025. I truly appreciated your presence — especially since this marked your **second visit** with us. Your continued engagement and the insights you shared regarding the Housing Options and Opportunity Act did not go unnoticed and mean a great deal to our community.

I'm reaching out personally to express my strong concern for Zoning Bills 25-0064, 25-0065, and 25-0066.

As a resident of historic Marble Hill, I care deeply about the long-term health, character, and stability of our neighborhood. While I fully understand the importance of promoting affordable and flexible housing options, these particular zoning changes raise serious concerns that I believe would have unintended, yet damaging, consequences for communities like ours.

Here's why:

- **Bill 0066** would allow up to four units to be built on lots currently zoned for single-family homes. This opens the door for increased investor activity and the conversion of homes into multi-unit rentals, making it harder for local families and first-time buyers to compete. Just this past April, our community had to actively push back against this exact type of predatory development — where duplexes were improperly being converted into quadruplexes. With support from Commissioner Alice Kennedy and the Department of Housing and Community Development, we were able to intervene and stop it. Adopting this bill now would feel like reversing that victory and signaling that those zoning protections no longer matter.
- **Bill 0065** would remove the requirement for off-street parking. Parking is already scarce in Marble Hill. Removing this requirement would increase congestion and create frustration for residents, particularly in older neighborhoods not designed to absorb that kind of density.
- **Bill 0064** proposes to reduce yard and green space requirements. These spaces are more than aesthetic — they contribute to safety, health, and the historic character that makes our community feel like home. Reducing them would strip away part of what gives Marble Hill its identity.

I'm not opposed to thoughtful growth — but I strongly believe that growth should be equitable and community-centered. The cumulative effect of these three bills would promote investor-driven development while diminishing the quality of life for existing homeowners and long-time residents.

Zack, I'm asking you not just as a constituent, but as someone who is deeply invested in preserving our neighborhood's integrity — please reconsider your support for these bills. I would also appreciate being notified of any upcoming hearings or public comment opportunities so I can continue to make my voice heard.

Thank you again for your time, your accessibility, and your ongoing commitment to public service. Your consistent presence in our community matters, and I trust you'll weigh our lived experience and local history in your decision-making.

Sincerely,
Charles Williams
