City Council Resolution 18-0078 has been introduced for the purpose of requesting that various City agencies, including the Department of Finance, appear before the Council to testify on how DAS and ATVES installations can be coordinated with additional CitiWatch cameras to ease the overall cost burden of implementing these technologies.

Based on preliminary review, it is anticipated that the City will achieve a cost savings through simultaneous installations of DAS, ATVES and CitiWatch. At this time, the estimated savings are uncertain; however, our office will continue to collaborate with the Mayor’s Office of Criminal Justice to estimate potential savings. The Department of Finance supports this resolution.
