	SUBJECT	<b>CITY COUNCIL BILL 13-0180</b>

CITY of  
BALTIMORE  
**MEMO**

DATE:  
February 13, 2013

**TO**

The Honorable President and Members  
of the Baltimore City Council  
c/o Karen Randle  
Room 400 – City Hall

I am herein reporting on City Council Bill 13-0180 introduced by the Council President on behalf of the Administration (Department of General Services).

The purpose of the Bill is to condemn and open a portion of Fremont Avenue, extending from Baltimore Street southeasterly 54.0 feet, more or less, as shown on Plat 329-A-23 in the Office of the Department of General Services.

Ordinance 03-613 approved the application of the University of Maryland Baltimore and UMB Health Sciences Research Park Corporation to have certain property designated a Business Planned Unit Development (PUD) and approved a Development Plan. The PUD included the properties known as 800-946 West Baltimore Street, 803-927 and 802-812 West Fairmount Avenue, 3-15 and 6-16 North Poppleton Street, 4-12 North Freemont Avenue, 3-11 North Schroeder Street, 3-15 North Amity Street, and 801 West Fayette Street. Ordinance 11-477 repealed the original Development Plan and approved a new Plan, expanding the boundaries of the PUD to include 72 additional properties and two open space areas located along the north- and south-side of Baltimore Street and Martin Luther King Jr. Boulevard. The additional properties are 800 and 830 West Baltimore Street; 900, 926, 930, 934, and 938-946 West Baltimore Street; 801, 825, 829, 859, 873, 901-905, 917-929, and 935-947 West Baltimore Street; 10-12 North Freemont Avenue; 802, 830-836, and 925 West Fairmount Avenue; 801, 811-821, 825, 829-833 West Fayette Street; 1 North Poppleton Street; 8-14 South Poppleton Street; 3-11 North Schroeder Street; 916 and 934-942 Booth Street; and 2-8 South Amity Street.

The new Development Plan includes expansion of a parking garage to provide additional spaces and the potential for retail and possibly a residential component; two development parcels at the western edge of the PUD and along West Baltimore Street; laboratory and office space at the northwest corner of Martin Luther King Jr. Boulevard and Baltimore Street; a new Proton Treatment Center that would include a 125 room hotel; an open space network that would retain landscaped areas at Martin Luther King Jr. Boulevard, Baltimore and Freemont Streets, open space along Baltimore Street and two landscaped areas flanking Baltimore Street at Schroeder Street; and streetscape plans along Baltimore and adjoining streets.

The Maryland BioPark is developing a gateway area to their campus, as well as a high-tech medical and science-related structure, both of which are part of the PUD development. City Council Bill 13-0180, if approved, would condemn and open an approximately 150.4 foot by 11.6 foot by 35.5 foot by 106.1 foot by 15.6 foot portion of

South Fremont Avenue, extending from its intersection with Booth Street along the easterly side of the right-of-way. Companion legislation would condemn and close certain rights-of-way (City Council Bill 13-0181) and authorize the sale of the former street bed (City Council Bill 13-0182).

The Department of General Services supports passage of City Council Bill 13-0180.

Respectfully,

A handwritten signature in black ink, appearing to read 'Steve Sharkey', written in a cursive style.

STEVE SHARKEY  
ACTING DIRECTOR
