The Baltimore City Health Department (BCHD) is pleased to have the opportunity to respond to Council Resolution 09-0177R which creates the BMore Streets for People program. This program would allow for the special and periodic closing of City arteries to vehicular traffic for jogging, biking, skateboarding and other people-engaging activities in temporary closed-roadbed havens. BCHD is pleased to work in conjunction with other City agencies, non-profits, and organizations to ensure successful implementation of this program, which would promote healthy activities for Baltimore City's residents. We look forward to participating in the hearing process.
