RE: City Council Bill 09-0272 Baltimore City Sustainability Plan

The Mayor's Office of Minority and Women-Owned Business Development supports City Council Bill #09-0272, for the purposes of establishing a Sustainability Plan for the City of Baltimore.

As the City works to implement a culture of a Cleaner Greener Baltimore our office will work to educate and inform the small, minority and women-owned business community, chambers of commerce, and business organizations in and around the City of Baltimore about our Sustainability Plan.
