RE: Council Bill 12-0034

PARKING
OF BALTIMORE CITY
AUTHORITY

I am herein reporting on City Council Bill 12-0034 that was introduced by the Council President at the request of the Administration (Baltimore Development Corporation) on Monday, February 27, 2012.

The purpose of the Bill is to repeal Ordinance 08-10, rescinding the Gateway South Planned Unit Development.

The Baltimore City Parking Authority reviewed the proposed legislation and determined it would have no negative impact to parking in that area as a result of the passage of the bill.

Based on the above comments, the Baltimore City Parking Authority supports the passage of City Council Bill 12-0034.
