RE: City Council Bill Report Request (12-0011)

The Mayor's Office of Information Technology believes that a Baltimore Police online crime and statistics website is something that the City and the Baltimore Police Department have the capability to implement. It is the understanding of MOIT that the Baltimore Police Department has already addressed this request and most of this information is already available on "Open Baltimore" <http://data.baltimorecity.gov/browse?category=Crime>. Although this website is still in its beta form it is expected to become "live" in the near future and will provide a greater level of service and transparency to the Citizens of Baltimore.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert E. Minor III".

Robert E. Minor III

Chief Information Officer

Mayor's Office of Information Technology
