A RESOLUTION ENTITLED

1 A COUNCIL RESOLUTION concerning

2 **Informational Hearing - Studying the Feasibility of a Small Hauler Incentive Program**

3 FOR the purpose of inviting representatives from the Department of Finance, Department of  
4 Public Works, and the Department of Health to discuss the feasibility of enacting a small  
5 hauler incentive program to better offset illegal dumping and litter in our communities.

6 **Recitals**

7 It is no secret that Baltimore has an illegal dumping and litter problem. Due to the transient  
8 nature of the issue, enforcement can be incredibly tricky. Thus, we as a City government must  
9 begin to think outside of the box on solutions, in addition to mere enforcement.

10 In the vein of previous enactments such as the Private Security Camera Rebate Program, one  
11 such solution could be the enactment of a small hauler incentive program that would incentivize  
12 small haulers to join in the effort to rid our communities of unsightly and unhealthy trash.

13 The broad contours of the program would be simple. If you are licensed as a small hauler and  
14 you live or your business is located within the City, you would be eligible for a payment of \$75  
15 per ton of waste that you dispose of at the City's Quarantine Road facility. The hauler would be  
16 responsible for maintaining the proper documentation indicating the dates and tonnage of waste  
17 disposed at Quarantine Road facility.

18 Obviously, in order for a proposal such as this to be effective, there are details that need to be  
19 discussed, such as whether the City could afford this program and, if not, are there alternative  
20 funding streams that could be made available, such as grants; and whether the relevant agencies  
21 could implement this program without additional staffing or administrative resources.

22 Thus, this hearing would serve as a beginning point in a discussion that may ultimately  
23 produce effective legislation resulting in tangible benefits to the people and communities of  
24 Baltimore.
