The Honorable President and
Members of the City Council
Room 400, City Hall

June 7, 2018

Ladies and Gentlemen:

In accordance with Article VI, Section 7 (c) of the Baltimore City Charter (1996 Edition) submitted herewith is a report for the fiscal period July 1, 2018 through June 30, 2019. The report shows the taxable basis (Table 1), the difference between anticipated General Fund expenditures approved by the City Council and expected General Fund revenues exclusive of property taxes, and a sufficient tax rate needed to raise the difference between such anticipated expenditures and revenues and funding sources.

Tax Rate Requirement Fiscal Year 2019

General Fund Appropriation proposed by

| | |
|-----------------------------------|-------------------------------|
| Board of Estimates | \$1,882,800,000 |
| Council Cuts | \$0 |
| General Fund Appropriation | <u>\$1,882,800,000</u> |

General Fund Revenue Exclusive of

| | |
|--|-------------------------------|
| Property Tax Estimated by Board of Estimates | \$944,411,419 |
| Property Tax Revenue Required | \$938,388,581 |
| General Fund Total Required Funding | <u>\$1,882,800,000</u> |

Sufficient Tax Rates:

| | |
|---|---------|
| Real Property other than Public Utility | \$2.248 |
| Personal Property and Public Utility Real | \$5.620 |

The Tax Property Article 6-302 of the State code establishes the tax rate applicable to personal property and public utility operating real property for any taxable year beginning after June 30, 2001 as 2.5 times the rate for real property. A tax rate of 1 cent per \$100 of taxable value is estimated to yield \$526,489 in personal property tax, which is 2.5 times the net tax yield for personal property and public utility real property of \$210,596; and yield an estimated \$3,647,838 for all other real property. The estimate is based on an anticipated tax collection rate of 97.5% for all real and personal property, and estimates of the property tax base as submitted by the Maryland State Department of Assessments and Taxation as adjusted and set forth in Table 1 for Fiscal 2019.

Therefore, a tax rate of \$2.248 for real property other than public utility and \$5.62 for all personal property and public utility real property will be sufficient to raise the required property tax revenue of \$938,388,581.

The Honorable President and
 Members of the City Council
 Room 400, City Hall

June 7, 2018

Ladies and Gentlemen:

In accordance with Article VI, Section 7 (c) of the Baltimore City Charter (1996 Edition) submitted herewith is a report for the fiscal period July 1, 2018 through June 30, 2019. The report shows the taxable basis (Table 1), the difference between anticipated General Fund expenditures approved by the City Council and expected General Fund revenues exclusive of property taxes, and a sufficient tax rate needed to raise the difference between such anticipated expenditures and revenues and funding sources.

The Tax Property Article 6-302 of the State code establishes the tax rate applicable to personal property and public utility operating real property for any taxable year beginning after June 30, 2001 as 2.5 times the rate for real property. A tax rate of 1 cent per \$100 of taxable value is estimated to yield \$526,489 in personal property tax, which is 2.5 times the net tax yield for personal property and public utility real property of \$210,596; and yield an estimated \$3,647,838 for all other real property. The estimate is based on an anticipated tax collection rate of 97.5% for all real and personal property, and estimates of the property tax base as submitted by the Maryland State Department of Assessments and Taxation as adjusted and set forth in Table 1 for Fiscal 2019.

Therefore, a tax rate of \$2.248 for real property other than public utility and \$5.62 for all personal property and public utility real property will be sufficient to raise the required property tax revenue of \$938,388,581.

Pugh: City to lease garages to raise millions for neighborhoods

By JULIUS WHITE • MAY 4, 2018

Mayor Pugh is looking to raise money to attract development to troubled Baltimore neighborhoods. Pugh hopes the plan will encourage private donations. She wants to raise \$55 million by leasing—not selling, several city-owned parking garages.

The neighborhood impact investment fund would help severely distressed areas in east and west Baltimore. Pugh hopes the plan will encourage private donations. In a released statement the mayor's office said Baltimore's neighborhoods are its greatest assets and reflecting Mayor Catherine Pugh's priority to drive a new era of neighborhood investment, the Mayor launched the Neighborhood Impact Investment Fund. This fund will specifically focus on neighborhoods where there is a significant opportunity for growth and transformation and the prospect for revitalization is evident.

"Creating a new era of neighborhood investment and revitalization is the surest approach for putting economic empowerment within the grasp of all Baltimore citizens," said Mayor Catherine Pugh. "We believe this Neighborhood Impact Investment Fund will be a compelling impetus for partner investment by financial institutions, foundations, corporations, and individuals, eager to join us in moving Baltimore forward and unleashing the true potential that our neighborhoods represent."

NIIF will be a public-private targeted investment fund to spur development and business growth in underinvested communities. This initiative will be funded in part with an approximately \$55 Million investment from Baltimore City. The fund is expected to use the City's investment to leverage additional private investment. NIIF's investments are expected to produce returns that enable the fund to be independent and self-sufficient over the long-term.

NIIF will be managed outside of City government as a separate 501(c)(3) organization. The non-profit organization will be governed by a Board composed of business and civic leaders, in addition to representation from the City to ensure mission alignment and to leverage existing government programs and investments.

 - In the FY19 budget are there any new reviews for DPW and DOT?
 - What does the review entail?
- Non-Profits
 - Hospitals
 - What is the definition of patient care? Their garages, car washes, equipment and etc. that don't have anything to do with hospitals! Are we looking at that?
 - Concern – all other type of business that doesn't have anything to do with non-profits! We need to look at this!
 - We support non-profits; they do a great job but everything can't be considered non-profit. We need to create a task force!

Neighborhood Impact Investment Fund

Fact Sheet

May 2018

Overview

Recognizing that Baltimore's neighborhoods are its greatest assets, Mayor Pugh has made attracting new investment to neighborhoods a top priority of her administration. Specifically, the Mayor is focused on neighborhoods where there is significant opportunity for growth and transformation and the prospect for revitalization is evident. To create a new era of funding for neighborhoods, Mayor Pugh has developed a comprehensive community development platform which will include the creation of a new multi-million dollar public-private targeted investment fund to spur development and business growth in disinvested communities. This initiative will be known as the Neighborhood impact Investment Fund (the "Program").

Program Details:

- The Program will be a geographically-targeted investment fund(s) that is **focused exclusively on historically disinvested neighborhoods** — defined by the federal New Markets Tax Credit program as "severely distressed".
- The Program will be funded in part with an approximately **\$55 million investment** from Baltimore City. These funds are expected to be generated from the leasing of several City-owned parking garages.
- The Program is expected to use the City's investment to **leverage additional private investment** that may include bank, institutional, and philanthropic capital.
- Modeled after similar, successful programs in San Francisco, New York City, Detroit, Cincinnati and other cities around the nation, the Program will be **managed outside of City government** as a separate 501(c)(3) organization. The organization will be governed by a Board composed of business and civic leaders in addition to representation from the City to ensure mission alignment and to leverage existing government programs and investments.
- The Program's **investments are expected to produce returns** that enable the Program to be independent and self-sufficient over the long-term.
- The Program will invest in **catalytic real estate projects** ranging from affordable and market-rate housing to small and medium-sized commercial developments in historically disinvested neighborhoods.
- The Program will support **investment in small businesses** and other job creation opportunities in historically disinvested neighborhoods.
- The Program will also be a channel for investments in Federally-approved **Opportunity Zones**.
- The City's investment will be contingent on an **approved loan agreement between the Board of Estimates and the Program**, which will govern how the City's investment may be deployed, including requirements that the loan proceeds be invested in neighborhoods in alignment with other City initiatives, will leverage additional private investment and will include mechanisms for unused loan proceeds to be returned to the City in the event that they are not properly utilized or invested.

Process

- In spring 2017, Mayor Pugh convened her top executives and key agency leaders, including the Department of Housing & Community Development and the Baltimore Development Corporation, to develop a plan to attract new investment in Baltimore's neighborhoods.
- Over the past year, significant research was completed through precedent analysis, stakeholder interviews and financial modeling.
- Nine successful neighborhood and housing investment programs from other cities around the nation were studied, including San Francisco, New York City, Detroit and Cincinnati.
- Over 40 interviews were conducted with local non-profit community development corporations, for-profit developers, lending institutions, community development financial institutions (CDFIs), philanthropic organizations, and government agencies to determine the market need for and feasibility of such a fund and to ensure compatibility and synergy with existing programs.
- The final recommendation was to create a neighborhood investment fund uniquely positioned to make investments that neither the private nor public sectors are able to do alone without additional support. The fund was recommended to be independent, capitalized and operated in collaboration with the City, foundations, and private investors to provide a unique source of gap financing with a higher tolerance for risk and longer timeframe for return on investment to fill market gaps.

Next Steps

In order for the City to invest approximately \$55 million into the Neighborhood Impact Investment Fund, the following four steps must be taken:

1. The City Council must approve in the FY19 City Budget an appropriation for the Neighborhood Impact Investment Fund in the capital budget.
2. The Board of Estimates must approve the investment of the \$55 million (most likely in the form of a loan agreement) to the Neighborhood Impact Investment Fund.
3. The Board of Estimates must approve a lease agreement with the Maryland Economic Development Corporation (MEDCO) for city-owned garages to generate the expected net proceeds of \$55 million.
4. MEDCO must issue and close on bonds associated with the parking garage lease in order to generate the net proceeds.

Garage Lease Overview

- Working with MEDCO, a quasi-governmental agency, the City is able to realize maximum value from the assets while retaining long-term ownership. The City lease will be with MEDCO, which will issue bonds to cover the lease rent as an upfront payment for the entire lease term.
- The lease is expected to be a 50-year term and bonds will be issued for 40 years. The parking garages revert to the City once the bonds are repaid. A portion of net operating income will be made available to accelerate the pay-down of the bonds, which will shorten the lease term.
- Net proceeds are expected to be \$55 million after existing debt service is retired, and capital improvements, debt/operating reserves, fees and other transactional costs are funded. In addition, a portion of the net annual operating revenue from the garage, after all expenses, will flow to the City.

MAYOR

Neighborhood Impact Investment Fund

The Initiative marks an Era of New Funding for Neighborhood and the largest investment in communities in recent decades.

The City's \$55 million investment is expected to leverage millions of dollars of private investment to spur development and business growth in historically divested neighborhoods to bring transformational change in geographically-targeted areas.

The Initiative will operate as an independent 501 (c)(3) entity closely aligned with the City to ensure mission alignment and to leverage existing government programs and investments.

The Initiative is modeled after similar successful programs nationally and will be one of the largest investment initiatives in the country.

The Initiative will invest in catalytic real estate projects as well as support small business.

Rationale for the MEDCO Lease

1. Allows the City to monetize the value of the projected cash flows related to the (3) City owned garages over the proposed lease term through the issuance of tax-exempt and taxable municipal bonds. The list and locations are:
 - Marriot – 45 W Lombard St.
 - Redwood – 11 S Eutaw St.
 - Water Street – 414 Water St.
2. Unlikely the City captures higher value in a sale to a private entity due to the higher cost of private capital versus borrowing in the municipal bond market.
3. Unlike a sale to a private entity, the MEDCO lease allows the City to capture residual cash flows after all other MEDCO obligations have been met.
4. Garages are returned to the City at the end of the lease term or once the MEDCO bonds have been repaid.
