

Good Day,

As a 41 year resident of Mt. Winans South Paca Street, I am writing to express concerns regarding the CSX switching station and tracks at Hollins Ferry Rd and South Paca Street.

1. Respectfully, I would like to see some form of noise barriers installed the trains/engines constantly run their engines 24/7 as a result I suffer from frequent insomnia.

Any consideration you can provide for this topic is appreciated.

Best Regards.
