A RESOLUTION ENTITLED

1 A COUNCIL RESOLUTION concerning

2 **Request for State Legislation - Closing a Homestead Tax Credit Loophole**

3 FOR the purpose of respectfully requesting that the Baltimore City delegations to the General  
4 Assembly work to secure passage of legislation to prevent banks from benefitting from  
5 Homestead Tax Credits issued to homeowners they have evicted from their homes through  
6 foreclosure.

7 **Recitals**

8 The lingering effects of the worst economic downturn sine the Great Depression continue to  
9 pose challenges. All levels of government are struggling with lower tax revenue combined with  
10 greater demands for social services as the weak recovery strains many citizens' finances.  
11 Foreclosures also remain at levels well above historic norms.

12 These foreclosures materially add to the burdens on government and society at large. Former  
13 homeowners thrown out into the street often need support from various government services to  
14 get by, placing an additional strain on an already overstretched social safety net. Nearly as bad,  
15 banks often do not immediately sell or take full possession of foreclosed upon, formerly owner  
16 occupied houses. Instead, previously well maintained homes are allowed to sit vacant, attracting  
17 all the symptoms of urban blight and forcing local government's to expend scarce resources to  
18 ameliorate the harms these vacant properties bring to formerly stable neighborhoods.

19 It is therefore especially galling to hear reports that some of these banks refuse to finalize the  
20 transfer of a property into their names after foreclosure so that the banks can take advantage of  
21 the Homestead Property Tax Credit to reduce the amount of taxes that they rightfully should be  
22 paying to local and State governments. This abuse of a program intended to *assist* homeowners  
23 by companies who are systematically *eliminating* homeownership is unacceptable. With City,  
24 State, and County governments facing daunting revenue shortfalls it is also unaffordable.

25 There is no question that the General Assembly intended to give a tax break to homeowners  
26 rather than banks and speculators when it enacted the Homestead Property Tax Credit  
27 legislation. Unfortunately, bank managers and attorneys seem to have found a technicality in  
28 that law that allows them to withhold taxes by refusing to properly finalize foreclosure  
29 proceedings. Fortunately, the State legislature has the power to close this loophole and thereby  
30 increase property tax revenue while reducing the incentives for banks to improperly refrain from  
31 finalizing foreclosure proceedings

EXPLANATION: Underlining indicates matter added by amendment.
