A COUNCIL RESOLUTION CONCERNING

The Cyclists' Bill of Rights

FOR the purpose of reaffirming support for efforts to improve conditions for cyclists and encouraging more widespread awareness of the "Cyclists' Bill of Rights" .

Recitals

The widespread use of bicycles brings many benefits to a community. Cycling improves people's health, increases public safety, encourages greater involvement in communities, reduces traffic congestion, improves air quality, reduces our reliance on fossil fuels, and generally is better for the environment than alternate methods of travel.

The City of Baltimore has long recognized these myriad benefits and has therefore consistently sought to encourage cycling. In these efforts, the City has been blessed with a strong and vibrant local cycling community eager to serve as a partner. Many in the cycling community throughout the nation have begun to promote a "Cyclists' Bill of Rights" that they feel encapsulates the treatment that cyclists should be able to expect from government.

This "Cyclists' Bill of Rights" expresses the following tenets:

1. Cyclists have the right to travel safely and free of fear.
2. Cyclists have the right to equal access to our public streets and to sufficient and significant road space.
3. Cyclists have the right to the full support of educated law enforcement.
4. Cyclists have the right to the full support of our judicial system and the right to expect that those who endanger, injure, or kill cyclists will be dealt with to the full extent of the law.
5. Cyclists have the right to routine accommodations in all roadway projects and improvements.
