

## 2025: Residential

Jan-Dec 2025				
Fate of Waste	Total	Waste Type	Tonnage	Destination
		SSR	22,564.58	WMRA
Recycled:	24,477.88	Drop Off Recyclables	1,913.30	Multiple Vendors
Composted:	31.89	Food Scraps	31.89	Compost Crew & Veterans Compost
			17,410.84	ORL
Disposed:	152,689.32	MSW	135,278.48	BRESKO
<b>Diversion Rate:</b>	<b>13.83%</b>			

**SSR**= Single Stream Recycling collected curbside and at Residential Recycling Centers  
**Drop Off Recyclables**= electronics, textiles, tires, mattresses, scrap metal collected at Residential Recycling Centers  
**Food Scraps**= Food scraps collected at Residential Recycling Centers  
**MSW**= Municipal Solid Waste  
**Diversion Rate**= Recycled + Composted divided by Recycled + Composted + Disposed

	Diversion Option	Timeframe (Years)	MDP (Tons)	Residential Diversion (Tons)	Commercial Diversion (Tons)	Measureable Diversion (Tons)	% MDP	Total Measurable Diversion	Total Measurable Reduction
Organics	Food Waste Reduction	20	72,400	48,752	23,648	72,400	13%	83%	18%
	Residential Organics Diversion	20	42,820	42,820	0	78,360	14%		
	Commercial Organics Diversion	20	35,540	0	35,540				
Single Stream Recycling	Improved Recycling Collection	10	84,177	84,177	0	153,483	28%		
	Expanded Recycling Collection	10	69,306	0	69,306				
C&D	C&D Reuse and Reduction	10	28,353	0	28,353	228,453	41%		
	C&D Diversion	20	200,100	0	200,100				
Bulk	Bulk Waste Diversion	10	4,046	2,001	2,045	4,046	1%		
Drop-Off	Res. Dropoff and Small Hauler Improvements	5	16,090	7,959	8,132	16,090	3%		
	<b>Maximum Diversion Potential Full LWBB Implementation</b>		<b>552,832</b>	185,709	367,124	552,832			
	<b>Total Waste Remaining After Full LWBB implementation</b>		<b>278,085</b>
