16 The off-street parking and loading regulations of this title are intended to:

- 17 (1) provide accessible, attractive, secure, and well-maintained off-street parking and  
18 loading [areas with the appropriate number of spaces in proportion to the needs of the  
19 proposed use;] AREAS; AND
- 20 (2) increase public safety by reducing congestion of public streets;
- 21 (3) encourage the use of alternative modes of transportation where appropriate; and
- 22 (4) ensure that parking requirements are tailored to maintain pedestrian environments  
23 and sensitive to the urban fabric of the City.

24 **Subtitle 2. General Applicability**

25 **[§ 16-201. Existing off-street parking facilities.]**

26 [(a) *No reduction below requirements.*]

27 [The number of existing off-street parking and loading spaces may not be reduced below

## Council Bill 25-0065

1       [(b) *Transition rules.*]

2           [If a building permit was lawfully issued before June 5, 2017, and if construction began  
3           within 180 days of the permit's issuance, off-street parking and loading spaces must be  
4           provided in the amount required for the issuance of that building permit, regardless of the  
5           requirements of this title.]

6       **[§ 16-202. Damage or destruction.]**

7           [If a structure is reconstructed or repaired after being damaged or destroyed, off-street  
8           parking and loading facilities may be restored or maintained in an amount equivalent to that  
9           at the time of the damage or destruction. However, it is not necessary to restore or maintain  
10          parking and loading facilities in excess of the applicable requirements of this title.]

11      **[§ 16-203. Additions or expansions to existing structures.]**

12       [(a) *Parking spaces req'd for increased intensity.*]

15           that increased intensity, as required by this title.]

16       [(b) *Limited exception for preexisting non-residential uses.*]

17           [However, a non-residential use that was lawfully established before the June 5, 2017,

19           increase in units of measurement equals 10% or more of the units of measurement  
20           existing on June 5, 2017. Once that level of increase has been reached, however,  
21           off-street parking facilities must be provided, as required by this title, for the total

25           and loading spaces required by this title.]

26      **[§ 16-205. Provision of additional spaces and parking maximums.]**

27           [Nothing in this title prevents the voluntary establishment of additional off-street parking or  
28           loading facilities. However, in no case may off-street parking be provided in excess of double  
29           the requirements of this Code, except for detached and semi-detached dwellings to which no  
30           maximum applies or no parking is required. All regulations governing the location, design,  
31           and control of these facilities must be in accordance with this title.]

17 existing building or use has 180 days within which to accommodate required  
18 off-street parking or to apply for a variance. If the owner is unable to accommodate  
19 the parking or apply for a variance, then the use permit is revoked with respect to the
