RE: Council Bill – 19-0407

DATE: 10/10/19

INTRODUCTION – Franchise - New Cingular Wireless PCS

PURPOSE/PLANS – For the purpose of granting a franchise to New Cingular Wireless PCS, LLC, to construct, install, maintain, repair, operate, relocate, replace, and remove certain Communications Facilities in and across certain streets and Public Ways and Park Properties, subject to certain terms and conditions; and providing for a special effective date.

COMMENTS – Council Bill 19-0407 looks to formalize a franchise agreement between the City of Baltimore and New Cingular Wireless. The franchise agreement would allow for New Cingular Wireless to use city right-of-way and park properties to build out their wireless network. Under the franchise agreement, New Cingular Wireless would be permitted to attach wireless antennas to city-owned poles, which is expected to result in faster and more reliable wireless phone and internet service across the City of Baltimore.

This bill is expected to have a moderate impact on the Department of Transportation, in particular the agency's Right of Way Division and Conduit Division. Facilities associated with this franchise agreement to be installed within Baltimore City's municipal conduit network would likely result in increased revenue for the system's enterprise fund.

AGENCY/DEPARTMENT POSITION – The Department of Transportation **supports** City Council Bill 19-0407.
