CONFORMITY TO PLANS

LIVE

Goal 1: Build Human and Social Capital by Strengthening Neighborhoods

Objective 1: Expand Housing Choices for all Residents

Objective 2: Strategically Redevelopment Vacant Properties throughout the City

Goal 2: Elevate the Design and Quality of the City's Built Environment

Objective 1: Improve Design Quality of Baltimore's Built Environment

Objective 3: Promote Transit Oriented Development (TOD) and Mixed-use Development to Reinforce Neighborhood Centers and Main Streets.

A Master Plan for the Greenmount West neighborhood is currently in process through collaboration between the Department of Planning and the community stakeholders. The proposed legislation is consistent with the general goals set forth by the community in the ongoing planning process to provide affordable housing to accommodate existing area residents and to support the arts community.

ANALYSIS

The site was formerly used for an office building by the Department of Social Services. This building was demolished in the late 1980s and the site is currently unimproved land. Disposition of the site by Baltimore Housing to the petitioners is pending, and thus necessitates rezoning from O-R-3-P to O-R-3 to reflect the change from public to private ownership. Amendments to the Greenmount West Urban Renewal Plan reflect this change in zoning as well as the change in land use from Office (Public) to Office-Residential. An additional amendment to the Urban Renewal Plan that would identify the subject property as a disposition lot has been requested by Baltimore Housing to provide the authority to complete the sale of the site.

The proposed development is to occur in two phases, the first phase includes a 69 unit apartment building at the corner of Greenmount and Oliver and the second phase consists of eight town homes fronting Oliver. The 69 unit apartment building has been awarded low-income tax credits, with 11 of these units accommodating non-elderly disabled individuals. Thirty-six off-street parking spaces will be provided for tenant usage in a surface parking lot along the Brentwood frontage of the site and will be screened with fencing and landscaping.

It is expected that the petitioners will return to the Planning Commission at a later date to subdivide the property to permit the development by TRF Development Partners of the eight town homes along the southwestern frontage of Oliver Street. Because of funding requirements related to the low income tax credits; it necessary that council bills be considered at this time. The final subdivision and development plan action is forthcoming and will be considered at a later date.

The Site Plan Review Committee met on May 8th, 2009 to review this project and will grant final approval for a revised site plan subject to the comments from that meeting as specified in the meeting minutes. The project was presented to Urban Design and Architectural Review Panel May 21st, 2009. Staff will continue to work with the applicant to assure that the project is compliant with the City's Forest Conservation Requirements and that it completes the site plan review and design review processes.

The New Greenmount West Community Association, The Central Baltimore Partnership, The East Baltimore Community Corporation, Inc., and Baltimore Montessori Public Charter School were notified of this action.
