9 The National Association of Elementary School Principals, founded in 1921, by a group of 10 51 principals seeking to promote their profession and to provide a national forum for their ideas, 11 today represents 30,000 elementary and middle school principals who are dedicated to ensuring 12 that all children get the best education possible and has become the most powerful voice of Pre-13 K– 8 principals across the United States and around the world.

The National Distinguished Principals Program was established in 1984, as an annual event to honor exemplary elementary and middle school principals who set the pace, character, and quality of the education children receive during their early school years. One principal is chosen annually from each of the 50 states and the District of Columbia; principals representing private K-8 schools, Department of Defense Dependent's Schools, and the U.S. Department of State Overseas Schools are also eligible.

Public school principals are nominated by peers in their home states, and the final selection for each state's National Distinguished Principal is made by the organization's affiliates, while honorees from private schools and overseas schools are selected by special committees based on the following criteria that the selected principal:

- is an active principal of a school in which a commitment is clearly evident through programs designed to meet the academic and social needs of all students and through firmly established community ties with parents and local business organizations;
