In the event of an emergency relating to interference, upon notification of such emergency by City, Franchisee shall disconnect its operations and Facilities from a remote location. If Franchisee does not promptly disconnect its operations and Facilities after being notified by the City due to an emergency, City shall be permitted to disconnect Franchisee's operations and Facilities immediately, whether such Facilities is located on a City-owned facility or a third-party facility within the public right of way. City may perform, or cause to be performed, upon notice to Franchisee, a technical evaluation to determine the cause of interference. If, after considering the results of Franchisee's inspection and tests or any technical evaluation performed by City, City determines that Franchisee is directly causing interference to City's operations, City shall promptly notify Franchisee and Franchisee shall immediately cease interfering with City's operations. If Franchisee fails to cease its interference with City's operations within twelve (12) hours of such determination, City shall have the right to take any steps it deems necessary, in its reasonable judgment and discretion, to cause the interference to cease. Franchisee shall be responsible for all reasonable payments and/or expenses relating to the City's actions to correct any interference problems caused by Franchisee.

For a period of thirty (30) calendar days after City determines that Franchisee's operations have caused interference, Franchisee may request, and, if its request is approved by the City, may perform intermittent testing of potential cures during specified hours. City's approval of a request to remain and conduct intermittent testing during specified hours shall not be unreasonably withheld, delayed or conditioned.

City's sole liability to Franchisee for action taken pursuant to this Section 18 shall consist of the value of any damage or repairs made necessary to affected Facilities by willful or grossly negligent acts of the City. In no event shall the City be liable for loss in value of Franchisee's Facilities, or any loss of revenue by Franchisee resulting from removal.

MPE Evaluation. Upon request from the City, Franchisee shall provide the City an up-to-date report on Maximum Permissible Exposure (MPE) regarding radio frequency emissions and maximum exposure for humans. A copy of any MPE reports submitted to the FCC shall be given to the City within ten days of FCC submission. Failure to provide the report or failure to comply in a timely manner with FCC standards for limiting human exposure to radio frequency emissions shall be an event of default. Within thirty (30) days after it receives an MPE report from the Franchisee, the City shall make the report available for public review on the City website.
