A COUNCIL RESOLUTION CONCERNING

Request for State Action – Police Redistricting 1 2 FOR the purpose of calling on the Baltimore City Delegation to the 2019 Maryland General 3 Assembly to secure enactment of legislation requiring that the Baltimore City Police Department review and adjust police district boundaries after the information from each 4 5 decennial census becomes available to ensure that Baltimore's security resources are allocated as efficiently as possible. 6 7 Recitals 8 Baltimore City's Police Department divides the 86 square miles under its jurisdiction into 9 police districts of varying size for administrative purposes. Typically, each of the 9 districts is 9 staffed with roughly the same number of officers. 10 District boundaries have remained unchanged for years despite significant changes in both 11 12 population numbers and distribution since the present boundaries were adopted, as well as changes in the security needs of various neighborhoods over this timespan. Today, the districts 13 14 vary significantly in area, population, and number of calls for services. A study of 2012 call for service data, for instance, found that the least active district had only 60% as many calls for 15 service as the most active district. 16 17 Without periodic review and revision of the district boundaries it is likely that changing circumstances will lead to increasingly inefficient allocations of police resources. In order to 18 avoid this, it is important to mandate that changes be considered at regular intervals. 19 By law, City Council districts need to be reexamined and realigned every 10 years when new 20 census results become available. Police districts should be adjusted at this time as well, so that 21 they can take advantage of the most up to date information available on population and service 22 23 call volume changes. NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF BALTIMORE, That the 24 25 Council calls on the Baltimore City Delegation to the 2019 Maryland General Assembly to secure enactment of legislation requiring that the Baltimore City Police Department review and 26 adjust police district boundaries after the information from each decennial census becomes 27 available to ensure that Baltimore's security resources are allocated as efficiently as possible. 28
