Oppose 21-0087

I am a local artist in the Baltimore community and I oppose bill 21-0087. Rezoning 100 E 23rd St to a commercial residential property would essentially be taking away a very valuable and important asset from the arts community. Doing this so that another bar can be placed in an area already littered with bars seems very unnecessary and cruel. I hope that my city council will consider all of then people who will be affected by this decision to transform this community pillar into yet another run-of-the-mill place to buy alcohol.
