Title: Request for State Action - Require a Rigorous Pollution Control Study and Stronger Nitrogen Oxides Limits for the Wheelabrator Baltimore Incinerator
For the purpose of urging that the Maryland Department of the Environment (“MDE”) require a rigorous analysis relating to the installation of new pollution control technology for nitrogen oxides (“NOx”) at the Wheelabrator Baltimore incinerator; requesting that, following the receipt of this analysis, MDE commence a second rulemaking process and set much stronger NOx pollution limits; and requesting that MDE share the analysis with the Council as soon as possible after receiving it.
