Type: City Council Resolution **Status:** Adopted
File created: 7/16/2012 **In control:** City Council
On agenda: **Final action:** 7/16/2012
Enactment date: **Enactment #:**

Title: Vital Signs: Measuring Progress Towards a Better Quality of Life in Every Neighborhood

FOR the purpose of endorsing the Vital Signs project, an initiative of the Baltimore Neighborhood Indicators Alliance – Jacob France Institute of the University of Baltimore. The purpose of the Vital Signs Project is to use indicators to promote, support, and help people make data-driven decisions to improve the quality of life in Baltimore City neighborhoods. These indicators reflect the diverse conditions of neighborhoods and provide the basis for a system of tracking progress toward a shared vision and agreed-upon outcomes that will result in stronger neighborhoods, improved quality of life, and a thriving City. In 2012, the Alliance released Vital Signs 10, which marks a decade's worth of neighborhood indicators that can be used to both measure success and serve as an input into planning the City's future.
