Title:	Informational Hearing - Park and Open Space Policies FOR the purpose of inviting all interested government officials, institutional leaders, and citizens to appear before it to discuss the status of all activities and planning underway in the city that might contribute to either maintaining the current open space estate or improving and expanding upon it, and to raise issues and questions about a governance paradigm for public open space that will ensure that Baltimore has a great and expansive system of public open spaces for the 21st century, one that is of no less vision and grandeur than that which the city had at the beginning of the last century.
